About the Directorate/Division/Department

The Department of Paediatric Medicine is part of the Medical Services Division and is located at the Austin Hospital campus in Heidelberg.

Austin Health is a paediatric teaching hospital and a quaternary referral centre for Acute Spinal Injuries, some of which are adolescents.

The Inpatient Paediatric Ward on 2 West is a 16-bed unit comprising medical and surgical patients. On average, the inpatient unit treats 1100 children every year for medical admissions which include general paediatrics, endocrine, epilepsy and eating disorders. Surgical admissions include ENT, orthopaedics, plastics, ophthalmology, and maxillofacial surgery.

The Paediatric Outpatients service attends to around 3000 patients per year. Clinics include, general paediatrics, adolescent and child eating disorder program, a fortnightly diabetes clinic and urgent emergency department referrals. The 6-month/12-month term gives the opportunity for the registrar to gain experience in longitudinal outpatient follow-up of patients with a variety of problems. Medical student teaching is also required.

The Paediatric Emergency Department is a 6-cubicle dedicated area with a paediatric procedure room. The department has 2 Resuscitation rooms which are equipped for both adult and paediatric presentations. The department sees approximately 18,000 paediatric presentations every year and is staffed with Paediatric Emergency Physicians, Paediatric Registrars and Emergency Registrars

Position responsibilities

CYMHS/General Paediatrics Position

Registrars undertaking this role have a fortnightly roster that includes 50% of the time in the Child and Youth Mental Health Service (CYMHS) and 50% of the time in General Paediatrics. The CYMHS role is based within a community mental health team where you will receive a comprehensive orientation with ongoing regular training and supervision. You will case manage a variety of presentations and be involved with the Autism Assessment Team and other specialised mental health services.

General Paediatric element

The General Paediatric component of the role includes Paediatric ward shifts (inclusive of one Sunday shift per fortnight) and Paediatric Clinic shifts. You will experience a wide range of general paediatrics and adolescent medicine, acute presentations as well as a wealth of community, behavioural and developmental paediatrics in addition to eating disorders, diabetes and epilepsy. All positions have rostered standby on call for night shifts in case of illness
