Austin Health acknowledges the Traditional Custodians of the land on which we operate, the Wurundjeri Woi Wurrung People of the Kulin Nation. We pay our respects to Elders past and present and extend that respect to all Aboriginal and Torres Strait Islander peoples.

Position purpose

The Emergency Nurse Practitioner (ENP) is directly involved in the provision of expert patient-centred clinical care and is recognised as the most senior clinical nurse in their area of specialty. This extends to the care of family, carers, and other health professionals.

ENPs are supported by Austin Health to work in clinical specialties where there is evidence that the advanced clinical skills of a Nurse Practitioner would enhance patient outcomes within an efficient service model.

About the Directorate/Division/Department

Emergency Services at the Austin consists of the Austin Emergency Department and Short Stay Unit.

The Emergency Department services approximately 85,000 patients per year, about 20% of whom are paediatric patients. The inpatient admission rate is of the order of 33%. The Emergency Department aims to assess, manage, and admit patients from a broad range of specialties, within the targets set by the Department of Health. This service will be delivered in a timely, compassionate, and appropriate manner, enhanced through teaching, research and the development of new technologies and processes.

The Short Stay Unit is a 28-bed unit which is co-located with, and staffed by, the Emergency Department nursing workforce. Patients admitted to Short Stay usually have a rapidly reversible condition which either requires a short period of treatment or observation, where the likelihood of safe discharge can occur in a 24 period.

The Emergency Service is at the forefront of new and innovative models of Emergency care and is a contemporary leader in Emergency Medicine and Nursing education, research, and quality. There is a strong focus on nursing education and upskilling opportunities with both a post graduate course in critical care nursing and an Emergency Foundations program is offered each year. There is also a wide range of nursing and education support by the in-house education team which promotes clinical support and education on a shift-to-shift basis.

The Austin Emergency Services provides exceptional care observing best practice and is a leading Australian hospital in regard to nursing educational opportunities and career development and a collaborative team approach to providing the best care to its clients.

Position responsibilities

Role Specific:

The Nurse Practitioner (NP) role provides support, compliments, and evolves with the demands of patient care within the Emergency Department. The Nurse Practitioner's patient population includes varying levels of complexity depending on scope of practice and delivers evidence-based patient centred care in their area of expertise.

- The NP is expected to conduct their practice in accordance with Austin Health's Emergency Nurse Practitioner Scope of Practice Clinical guideline.
- Assess and treat patients, liaising with appropriate family members and caregivers to promote patient centred care.
- Facilitate a coordinated approach to total patient management by working with other team members where required.
- Provide treatment for a wide variety of clinical conditions.
- Participate in continuing education activities with designated study leave.
- Collaborates with the multidisciplinary teams across Austin Health.

Independence

- NP practice recognises the educational and advanced practice attributes beyond the Registered nurse standards for practice.
- Authorised to diagnose and implement treatment Independently.
- Work collaboratively as part of a healthcare team.

Education domain

- Fosters a culture of clinical excellence that is based on person- centered care, collaboratively working with staff to focus on the quality and safety of services.
- Provide a resource role to patients, families, General Practitioner's, and community groups.
- Assist with the provision of health promotion activities.

Our actions
show we care

We bring
our best

Together
we achieve

We shape
the future

- Maintains and updates own Professional Practice Portfolio to demonstrate an ongoing commitment to learning and best practice.

Research domain

- Awareness of the latest research literature, equipment and treatment and utilisation of knowledge in practice.
- Disseminates clinical practice and research finding via education and publications.
- Initiates and conducts nursing research relevant to clinical specialty.
- Participates in the development and delivery of specialist research programs.
- Adapts and applies related scientific research to clinical area.
- Involved in clinical data collection as necessary.
- Reports on key quality parameters monthly to the multidisciplinary team, or as required.
- Demonstrates a commitment to quality management.
- Demonstrates a capacity to undertake/support nursing research, publication of work and public presentation within the local, national, and international healthcare community.

Leadership domain

- Provides expert clinical knowledge and direction to ensure that clinical standards, policies, and procedures promote a patient focused model of care.
- Acts as a nursing role model for staff and an expert clinician in the clinical setting.
- Assists the development of clinical specialty, by assuming a nursing leadership role in specialty clinical groups at State, National or an International Level.
- Participates in the development and delivery of specialist education programs.
- Participates in formal and informal education programs.
- Delivers regular education to Emergency Department staff.
- The NP will assist to orientate junior medical staff, HMOs and registrars regarding local processes in the Paediatric and Fast Track areas as required.
- Advocate for the development of nurse practitioner practice.
- Monitors own practice as well as participating in peer supervision and review.
- Displays important leadership qualities such as integrity; confidence; ability to inspire others; excellent communication; clear decision-making ability; accountability; ability to communicate information and expectations in a way that builds effective and collaborative working relationships with others.

Clinical domain

Standard 1: Assesses using diagnostic capabilities.

- Conducts advanced, comprehensive, and holistic health assessment relevant to specialist field of nursing practice.
- Conduct rapid, expert assessments at triage to identify patient acuity and care needs.
- Initiate investigations, prescribe treatment, and discharge patients within scope of practice.
- Accountable for utilising advanced assessment skills to develop a comprehensive, evidence-based treatment plan. This includes determining the need for organ imaging and laboratory investigations, undertaking diagnostic and therapeutic procedures, and prescribing medications informed by specialist knowledge and best practice.

Standard 2: Plans care and engages others.

- Documents extension of practice in Clinical Practice Guidelines which are supported by the multidisciplinary team.
- Direct patients to appropriate care pathways (e.g., Fast Track, SSU, acute cubicles, DASS, or discharge).
- Monitor and manage patients in the Waiting Room, ensuring safety and timely care.
- Identify patients suitable for early discharge and facilitate safe, efficient transitions home.

Our actions

General information

Cultural safety

Austin Health is committed to cultural safety and health equity for Aboriginal and/or Torres Strait Islander People. We recognise cultural safety as the positive recognition and celebration of cultures. It is more than just the absence of racism or discrimination, and more than cultural awareness and cultural sensitivity. It empowers people and enables them to contribute and feel safe to be themselves.

Equal Opportunity Employer

We celebrate, value, and include people of all backgrounds, genders, identities, cultures, bodies, and abilities. We welcome and support applications from talented people identifying as Aboriginal and/or Torres Strait Islander, people with disability, neurodiverse people, LGBTQIA+ and people of all ages and cultures.

Austin Health is a child safe environment

We are committed to the safety and wellbeing of children and young people. We want children to be safe, happy and empowered. Austin Health has zero tolerance for any form of child abuse and commits to protect children. We take allegations of abuse and neglect seriously and will make every effort to mitigate and respond to risk in line with hospital policy and procedures.
