About Austin Health

Austin Health is one of Victoria's largest health care providers. Comprising the Austin Hospital, Heidelberg Repatriation Hospital, Royal Talbot Rehabilitation, Hospital in the Home and community-based health services; Austin Health is an internationally recognised leader in clinical teaching, training and research, with numerous university and research institute affiliations.

We employ approximately 9,500 staff across its sites; and are known for our specialist work in liver transplant, Victorian Spinal Cord Injury Service, Victorian Respiratory Support Service, cancer, infectious diseases, obesity, sleep medicine, intensive care medicine, neurology, endocrinology, mental health, and rehabilitation.

Our vision is to shape the future through exceptional care, discovery, and learning. This is supported by our values which define who we are, shape our culture and the behaviours of our people.

We aim to provide an inclusive culture where all staff can contribute to the best of their ability and strive to develop further. We recognise that our people are our greatest strength. We want them to thrive, be their best selves and feel engaged, safe, and empowered. To achieve this, diversity and inclusion is essential to our culture and our values. You can view our current Diversity and Inclusion Plan [here](#).

Position Purpose

The Grade 1 Orthotist / Prosthetist will be recognised as a clinician in a specialist area and demonstrate developing skills and professional knowledge.

They will provide quality and patient-focussed orthotic and / prosthetic clinical services. This will include services within the Orthotic Inpatient Acute Care and / or the Orthotic Outpatient Community Care Streams.

They will actively participate as a team member in the O&P Department and in relevant inter-disciplinary teams.

They are expected to exhibit a commitment to professional development and continuous service improvement, with a focus on extending their individual practices and performance to provide optimal clinical outcomes.

About Orthotic/Prosthetic Department

This position is based within the Orthotic and Prosthetic Department. This department forms part of the Division of Allied Health. Allied Health employs over 1,000 health professionals across 27 disciplines, broadly known as the therapies and sciences, who work as key members of the multidisciplinary team aiming to provide the best outcomes for patients via preventing, diagnosing, and treating a range of healthcare conditions.

Allied Health staff support patients at every stage of their healthcare journey across Austin Health with services provided across all three sites (acute and sub-acute), in the ambulatory setting, at home and in the community.

The O&P Department is committed to promoting the highest levels of management for our patients through the use of person-centered evidence-based practice.

The Department provides services to all three campuses of Austin Health, across all Divisions. The department provides care across the continuum and is a registered service provider for a number of funding bodies including NDIS, VALP, TAC & Workcover.

The clinician employed in this position reports to the Manager of Orthotics and Prosthetics and is expected to travel across campus' as required and adopt a flexible approach to clinical caseload management and the provision of care during periods of planned and unplanned leave. They will also be expected to participate in an after-hours roster system.

The department is focused on developing the professional body of knowledge and practice of staff in a range of areas to ensure high quality service provision. This is achieved through staff participating in ongoing training and professional development, clinical supervision and performance review, research, quality improvement activities and undergraduate and / or post-graduate student teaching. The department has a continuing education, student and quality improvement strategy which is developed and operationalised through senior leadership forums and committees.

Role Specific:

Clinical

Provide evidence based clinical care to a designed patient group.

- Prioritisation and provision of direct clinical services to areas of Austin Health in accordance with case load requirements.
