Austin Health acknowledges the Traditional Custodians of the land on which we operate, the Wurundjeri Woi Wurrung People of the Kulin Nation. We pay our respects to Elders past and present and extend that respect to all Aboriginal and Torres Strait Islander peoples.

Position purpose

The purpose of the Grade 1 Graduate Radiation Therapist (RT) position is to transition towards consolidating skills in all aspects of radiation therapy practice and advance towards confidence and competence as a radiation therapy practitioner. The position is tailored for newly registered practitioners who have met the AHPRA requirements for general or provisional registration for radiation therapy practice. If required support will be provided for graduates transitioning to meet full general AHPRA accreditation.

Working under the direction of the Senior Radiation Therapist, the Grade 1 Graduate RT is responsible for the delivery of radiotherapy planning and treatment according to all protocols, policies and standards detailed by the centre. Grade 1 Graduate RT's will strive to maintain effective communication with all clients and care for the needs of these clients as they undergo the planning

and treatment processes. The Grade 1 Graduate RT is a vital part of a multidisciplinary team and is expected to participate in all care activities.

The Grade 1 Graduate RT maintains and updates skills through active participation in project groups and professional development. Grade 1 Graduate RTs are required to be adaptive to change, fast to learn and contribute, as required, to the development and implementation of new techniques and technologies which enhance the care we provide to clients during times of busy clinical requirements. The Grade 1 Graduate RT will contribute to the ongoing research and development activities of the department.

Austin Radiation Oncology

Austin Health Radiation Oncology sits within the Cancer Services Division and is delivered through the Olivia Newton-John Cancer Wellness & Research Centre (ONJ Centre). The service is committed to providing high-quality, patient-centred care that embraces new technologies, advanced treatment techniques, and innovative models of care to achieve the best possible outcomes for patients.

Radiation Oncology services are delivered across a networked model, with the ONJ Centre and the Ballarat Austin Radiation Oncology Centre (BAROC) partnering to provide radiotherapy services across north-eastern Melbourne and the Grampians region. This is complemented by outreach services, including remote consultations and a superficial skin treatment service at the Stawell Austin Radiation Oncology Service (SAROS), ensuring accessible, holistic cancer care across metropolitan and regional communities.

The ONJ Centre is equipped with state-of-the-art radiotherapy technology, including Siemens CT simulation with Vision RT 4DCT, Elekta linacs with advanced imaging and motion management, and a comprehensive suite of planning and verification systems such as Mosaic, MIM Maestro, and Mobius. It also delivers specialised services including gynaecological brachytherapy, superficial X-ray treatments, and leads the Victorian MRI Program with MR-guided radiotherapy supported by the Elekta Unity MR Linac and Philips Ingenia Ambition MRI.

- Provide proof of immunity to nominated vaccine preventable diseases in accordance with Austin Health's immunisation screening policy.
- Work across multiple sites as per work requirements and/or directed by management.

General information

Cultural safety

Austin Health is committed to cultural safety and health equity for Aboriginal and/or Torres Strait Islander People. We recognise cultural safety as the positive recognition and celebration of cultures. It is more than just the absence of racism or discrimination, and more than cultural awareness and cultural sensitivity. It empowers people and enables them to contribute and feel safe to be themselves.

Equal Opportunity Employer

We celebrate, value, and include people of all backgrounds, genders, identities, cultures, bodies, and abilities. We welcome and support applications from talented people identifying as Aboriginal and/or Torres Strait Islander, people with disability, neurodiverse people, LGBTQIA+ and people of all ages and cultures.

Austin Health is a child safe environment

We are committed to the safety and wellbeing of children and young people. We want children to be safe, happy and empowered. Austin Health has zero tolerance for any form of child abuse and commits to protect children. We take allegations of abuse and neglect seriously and will make every effort to mitigate and respond to risk in line with hospital policy and procedures.
