Austin Health acknowledges the Traditional Custodians of the land on which we operate, the Wurundjeri Woi Wurrung People of the Kulin Nation. We pay our respects to Elders past and present and extend that respect to all Aboriginal and Torres Strait Islander peoples.

Position purpose

The Senior Pharmacist--Compounding is responsible for managing, coordinating, and regulatory oversight of sterile and non-sterile compounded pharmacy services within their designated portfolio. This role ensures safe, compliant, and efficient preparation of compounded products in accordance with applicable standards to optimise patient outcomes. This role provides leadership and mentorship to pharmacy staff, drives quality improvement initiatives, ensures adherence to aseptic and compounding best practices, and supports service development. In addition, the position supports Austin Health's strategic plan by contributing to organisational goals, implementing evidence-based practices, and promoting timely access to quality care supported by high quality compounded products.

About the Pharmacy Department

The Pharmacy Department sits within the Division of the Chief Medical Officer and provides comprehensive high-quality care to Austin Health patients and supports other members of the healthcare team in all aspects of medicines management. The department consists of a skilled team

of pharmacists, technicians and support staff working across all three campuses of Austin Health to ensure patients receive excellent care.

Position responsibilities

Role Specific:

- Provide leadership and oversight of daily compounding services in alignment with departmental structure.
- Develop and maintain staff competency frameworks, including aseptic technique and compounding skills
- Promote a culture of safety, accountability, and continuous improvement
- Act as a subject matter expert for sterile and non-sterile compounding, including hazardous drugs
- Oversee the preparation and verification of sterile and non-sterile compounded products
- Ensure compliance with applicable standards; acting as the key contact for audits and external regulatory bodies
- Maintain cleanroom and compounding facility standards (environmental monitoring, cleaning, certification) and maintain documentation for licensing and accreditation
- Manage workflow, prioritization, and turnaround times
- Ensure appropriate documentation, batch records, and labelling practice
- Lead quality assurance and quality control programs for compounding
- Monitor and respond to deviations, incidents, and contamination risks
- Oversee environmental monitoring programs (air, surfaces, personnel)
- Maintain sterility assurance practices and risk assessments
- Participate in audits, inspections, and accreditation processes
- Ensure compliance with occupational health and safety standards, including hazardous drug handling
- Develop, review, and maintain SOPs, policies, and procedures
- Provide expert advice on compounded therapies, stability, compatibility, and administration
- Provide comments on medicine formulary decisions and new clinical trials related to the service.
- Support clinical teams with compounding-related queries
- Ensure safe handling and preparation of high-risk medications (e.g., cytotoxics, biologics)
- Participate in medication safety initiatives and committees as required
- Implement new technologies, systems, or workflows to enhance efficiency and safety
- Lead or contribute to quality improvement and research initiatives
- Monitor KPIs and performance metrics for the service

Management and Leadership

- Provide strategic leadership and operational management of the clinical pharmacy team to ensure effective service delivery.
- Manage rostering, leave allocation, and workforce rotation in collaboration with the Deputy Director of Pharmacy.
- Provide specialist medication advice to medical, nursing and allied health staff.

Our actions
show we care

We bring
our best

Together
we achieve

We shape
the future

- Support strategic goals for safe, timely, evidence-based care.
- Promote a culture of continuous improvement, innovation, and professional development.
- Represent Pharmacy on committees and collaborate with leadership teams across Austin Health.
- Provide operational and performance advice to the Pharmacy Executive.
- Represent the department in external activities and professional organisations.
- Support other departmental services and perform duties as directed.

Education and Training

- Facilitate training and education for interns, undergraduates, and ward staff.
- Provide orientation, competency assessments, professional development, and performance reviews for the pharmacy team.
- Ensure Advanced Pharmacy Australia (AdPha) ClinCATs are completed every two years for pharmacy team.

Quality, Safety and Research

- Implement and monitor medication management KPIs.
- Contribute to policy development, quality improvement, and research initiatives.
- Ensure compliance with legislation, accreditation standards, and guidelines.
- Identify and manage risks, promote cost-effective medicine use, and reduce waste.
- Support staff development through conferences and feedback sharing.

Workforce

- Foster a culture aligned with Austin Health values.
- Recruit and retain a skilled workforce.
- Manage staff leave effectively.
- Oversee annual performance reviews and professional development opportunities.
- Provide operational cover as required.
- Participate in weekend, public holiday and on-call services.

Selection criteria

Essential skills and experience:

- Minimum of 5 years' extensive hospital pharmacy experience, with a minimum of 3 years experience in sterile and non-sterile compounding.
- Strong knowledge of compounding standards and experience in quality assurance.
- Advanced clinical pharmacy knowledge and expertise in relevant area.
- Highly effective, professional, and courteous communication skills.
- Demonstrated ability to work collaboratively within a team, showing initiative and motivation.
- Proven leadership capabilities.
- Experience in staff training, supervision, and performance management.
- Strong commitment to delivering high-quality patient care.
- Ability to represent the pharmacy department on internal and external committees.
- Demonstrated problem-solving skills with a proactive approach.
- Excellent communication, negotiation, and organisational abilities.
- Capacity to work independently while managing competing priorities.

Our actions
show we care

We bring
our best

Together
we achieve

We shape
the future

- Demonstrated commitment to patient safety and clinical excellence.
- Ability to perform under pressure, meet deadlines, and prioritise workload effectively.
- A commitment to Austin Health values.

Desirable but not essential:

- Advanced presentation and professional writing skills.
- Strong teaching ability, including didactic and experiential methods, to educate undergraduate and postgraduate pharmacists, nurses, doctors, and allied health professionals.
- Experience in leading or contributing to quality improvement or safety projects within pharmacy services.
- Participation in academic or research activities, such as conference papers/posters, seminar presentations, or journal publications.
- Proficiency in computer applications and digital tools relevant to pharmacy practice.

Professional qualifications and registration requirements

- Registered as a pharmacist with Australian Health Practitioners Registration Authority (AHPRA).
- Master of Clinical Pharmacy Practice or equivalent post-registration qualifications (extensive clinical experience, certification with the Board of Pharmacy Specialties and/or accreditation as an Advanced Practice Pharmacist may also be considered).

Quality, safety and risk – all roles

All Austin Health employees are required to:

- Maintain a safe working environment for yourself, colleagues and members of the public by following organisational safety, quality and risk policies and guidelines.
- Escalate concerns regarding safety, quality and risk to the appropriate staff member, if unable to rectify yourself.
- Promote and participate in the evaluation and continuous improvement processes.
- Comply with the principles of person-centred care.
- Comply with requirements of National Safety and Quality Health Service Standards and other relevant regulatory requirements.

Other conditions – all roles

All Austin Health employees are required to:

- Adhere to Austin Health's core values: *our actions show we care, we bring our best, together we achieve, and we shape the future.*
- Comply with the Austin Health's Code of Conduct policy, as well as all other policies and procedures (as amended from time to time).
- Comply with all Austin Health mandatory training and continuing professional development requirements.
- Provide proof of immunity to nominated vaccine preventable diseases in accordance with Austin Health's immunisation screening policy.
- Work across multiple sites as per work requirements and/or directed by management.

General information

Cultural safety

Austin Health is committed to cultural safety and health equity for Aboriginal and/or Torres Strait Islander People. We recognise cultural safety as the positive recognition and celebration of cultures. It is more than just the absence of racism or discrimination, and more than cultural awareness and cultural sensitivity. It empowers people and enables them to contribute and feel safe to be themselves.

Equal Opportunity Employer

We celebrate, value, and include people of all backgrounds, genders, identities, cultures, bodies, and abilities. We welcome and support applications from talented people identifying as Aboriginal and/or Torres Strait Islander, people with disability, neurodiverse people, LGBTQIA+ and people of all ages and cultures.

Austin Health is a child safe environment

We are committed to the safety and wellbeing of children and young people. We want children to be safe, happy and empowered. Austin Health has zero tolerance for any form of child abuse and commits to protect children. We take allegations of abuse and neglect seriously and will make every effort to mitigate and respond to risk in line with hospital policy and procedures.
