Austin Health acknowledges the Traditional Custodians of the land on which we operate, the Wurundjeri Woi Wurrung People of the Kulin Nation. We pay our respects to Elders past and present and extend that respect to all Aboriginal and Torres Strait Islander peoples.

Position purpose

This position is based at Repatriation campus, within the Austin Health Independence Program (HIP) and reports operationally to the Team Leader and clinically to the Clinical Nurse Coordinator (CNC) in the HIP Continence Service. The professional lead for registered nurses at Austin Health is the Director of Nursing at the relevant site.

This role will deliver evidence-based nursing care and consultancy in a manner consistent with professional, organisational, legal and ethical standards in order to optimise health outcomes for patients with continence issues and improve health outcomes for the community. This includes accordance with the Nursing and Midwifery Board of Australia approved Standards for Practice for the Registered Nurse 2016, position accountabilities for the Registered Nurse are described below. Comprehensive detail of the Standards is available at <http://www.nursingmidwiferyboard.gov.au> This role will also comply with the Practice Standards for Nurse Continence Specialists which can be found at <https://www.consa.org.au/practice-standards>, a HIP specific clinical competency framework, and the Clinical Governance Framework Austin Health.

About the Directorate/Division/Department

Austin's Health Independence Program (HIP) is funded by the Victorian Department of Health and Human Services and is part of the Continuing Care Division. HIP provides multi-disciplinary services that support people with health problems and other complex conditions to optimise their function and self-management skills so that they can live independently and well in their homes and community.

The services of the HIP Continence Service are available to patients with continence issues including bowel and/or bladder dysfunction to remain living at home and to prevent unnecessary representation to the Emergency Department or admission to Hospital. The service operates from Monday to Friday with the multi-disciplinary clinic taking place on Tuesday morning.

The Clinical Nurse Consultant (CNC) in the HIP Continence Service is responsible for providing a high standard of clinical nursing care to support effective management of patients with continence issues. This occurs in collaboration with the multidisciplinary team including medical staff, physiotherapists and other CNCs.

Position responsibilities

Direct Comprehensive Care:

- Delivers high quality, coordinated and integrated patient care to support the health independence of patients referred to the Continence Service.
- Provides clinical nursing assessment, care planning and interventions/procedures to patients referred to the Continence Service.
- Provides clinical nursing consultancy in line with clinical standards, policies, and procedures to nursing staff in the sub-acute settings to facilitate safe discharge planning and refer to the Continence Service when required.
- Provides a timely response to referrals for patients eligible for the Continence Service.
- Participates in multi-disciplinary and nurse led clinics, provide nursing support, and recommend appropriate continence treatment and management plans for clients in liaison with treating clinical staff and the community health care team.
- Provides ongoing information to patients and carers to assist them in understanding their health condition and subsequent plan of care.
- Assists in the development of educational resources for patients, their families, and carers.
- Refers to other members of the HIP Continence Service for ongoing assessment and management when required.
- Liaises with other relevant people involved in the patient's care including informal support networks, GP (General Practitioner), hospital-based clinicians and community service providers when required.
- Assists with provision of leave cover within the clinical discipline for periods of approved leave and across the HIP as required

Support of Systems:

- Uses clinical information systems to guide practice and inform aspects of patient decision making and to evaluate outcomes.
- Evaluates progress and efficiency of continence management strategies using outcome measures.
- Ensures documentation meets legal, professional and organisational standards.
- Completes funding application paperwork when required.
- Orders products as required for clinic.
- Ensures maintenance and servicing of equipment used in clinic.
- Invites and assimilates feedback from others by active participation in own performance review process.

Our actions

the future

Professional Leadership:

- Communicates information and expectations clearly and concisely in a way that builds effective and collaborative working relationships with others.
- Demonstrates personal and professional integrity through building sound professional relationships with all members of the multidisciplinary team.
- Demonstrates the ability to maintain and foster appropriate relationships with relevant key stakeholders.
- Contributes to the development and promotion of HIP services internally and externally

Research and Quality:

- Actively contributes to the accreditation process, including achieving compliance with the National Safety & Quality Health Service Standards.
- Identifies and contributes to areas that require improvement through observation, audits, incidents and staff feedback, and implement improvement initiatives accordingly.
- Actively contributes to the development and review of policies and practice guidelines in line with their area of clinical expertise.
- Contributes to a Quality and Business Plan for the Continence Service, informed by the wider HIP plan and as required in accordance with the National Safety and Quality Health Service Standards and Austin Health Guidelines.
- Reports matters relating to Occupational Health and Safety to ensure safety standards in the workplace are met.
- Reports complaints in a timely, responsive manner and implement strategies to limit reoccurrence of the identified complaint.
- Participates in and contribute to quality improvement activities and research initiatives.
- Maintains a safe work environment by reporting any incidents or unsafe work practices, sites or equipment.

Education:

- Maintains ongoing personal and professional development by proactively identifying own areas for development and undertaking further education as required, and/or attending lectures and meetings
- Maintains and updates own professional development portfolio to demonstrate an ongoing commitment to learning and best practice.
- Provides ongoing education to staff regarding continence issues including presentations and staff in-services
- Supports student placements in Continence Clinic.

Key Performance Indicators:

- Delivers high quality patient care.
- Continually seeks ways to improve systems and procedures.
- Demonstrates integrity by building trust and mutual respect between self, colleagues and stakeholders.
- Proactively reports any system and safety non-compliance and implements remedial action plans.
- Reflects on practice in line with Austin Health values and applies these when interacting with others.

- Provide proof of immunity to nominated vaccine preventable diseases in accordance with Austin Health's immunisation screening policy.
- Work across multiple sites as per work requirements and/or directed by management.

General information

Cultural safety

Austin Health is committed to cultural safety and health equity for Aboriginal and/or Torres Strait Islander People. We recognise cultural safety as the positive recognition and celebration of cultures. It is more than just the absence of racism or discrimination, and more than cultural awareness and cultural sensitivity. It empowers people and enables them to contribute and feel safe to be themselves.

Equal Opportunity Employer

We celebrate, value, and include people of all backgrounds, genders, identities, cultures, bodies, and abilities. We welcome and support applications from talented people identifying as Aboriginal and/or Torres Strait Islander, people with disability, neurodiverse people, LGBTQIA+ and people of all ages and cultures.

Austin Health is a child safe environment

We are committed to the safety and wellbeing of children and young people. We want children to be safe, happy and empowered. Austin Health has zero tolerance for any form of child abuse and commits to protect children. We take allegations of abuse and neglect seriously and will make every effort to mitigate and respond to risk in line with hospital policy and procedures.
