Hours per week:	10.5 (0.3 FTE)
Reports to:	Clinical Director, ICYMHS Medical Director, Mental Health Division
Direct Reports:	N/A
Financial Management:	Budget: N/A
Date:	July 2024

About Austin Health

Austin Health is one of Victoria's largest health care providers. We deliver services for patients across four main sites in Melbourne, in locations across our community, in people's homes, and within regional hospitals across Victoria. We are an internationally recognised leader in clinical teaching, training and research, with numerous university and research institute affiliations.

We employ approximately 9,500 staff and are known for our specialist work in cancer, infectious diseases, obesity, sleep medicine, intensive care medicine, neurology, endocrinology, mental health and rehabilitation.

Our vision is to shape the future through exceptional care, discovery and learning. This is supported by our values which define who we are, shape our culture and the behaviours of our people.

We aim to provide an inclusive culture where all staff can contribute to the best of their ability and strive to develop further. We recognise that our people are our greatest strength. We want them to thrive, be their best selves and feel engaged, safe and empowered. To achieve this, diversity and inclusion is essential to our culture and our values. You can view our current Diversity and Inclusion Plan [here](#).

Position Purpose

This role will work in the ICYMHS (Infant, Child & Youth Mental Health Service) Directorate providing high level clinical governance and psychiatric care to young people attending the Emergency Department, and those admitted to the Psychiatric Assessment and Planning Unit, and provide support to the mental health staff of

Emergency Psychiatric Services, Child and Youth Triage, Crisis Assessment and Treatment Team and Psychiatric Assessment and Planning Unit. This role will interface with the Consultant Psychiatrist Liaison to the Emergency Department. Together they will provide leadership and clinical governance to the front end services for children and youth at Austin's Mental Health Division. This role will play a pivotal part in linking the Emergency services with the ICYMHS service and with general Consultation Liaison services at Austin Health and will report to the Clinical Director for ICYMHS. This position could be a child and adolescent or youth psychiatrist with an interest in assessment, engagement and liaison roles.

To provide consultant psychiatric services to the Mental Health Division (MHD) as directed / required. The Consultant Psychiatrist will ensure that services provided by the MH Division are the highest standard, emphasising excellence, service, care, staff performance, cost efficiency, research and education within a comprehensive clinical governance framework.

To provide clinical leadership within the Mental Health programs of Austin Health.

Will comply with:

1. National Practice Standards for the Mental Health Workforce 2002
2. National Standards for Mental Health Services 1996
3. Austin Health Code of Conduct.
4. Participate in on-call rosters, ECT rosters or other duties as required by MH Division Medical Director or delegate.

Consultant Psychiatrists are expected to provide high-level psychiatric services within their approved scope of clinical practice as part of the Mental Health Division at Austin Health. As all Consultants are expected to be able to provide routine specialist mental health services and cover "on call" after hours, a minimum level of expertise and set of skills is necessary. This is outlined below.

This is a senior Medical Position and carries with it the professional responsibilities of clinical leadership, teaching and training as well as administrative requirements.

Key Priorities

Continuum of Care

(Includes service provision, consumer/patient assessment, care planning, continuing management)

- To ensure high quality acute assessment and treatment services are provided to the patients of the service.
- To ensure high quality continuing care services are provided for the patients of the service.
- To develop treatment programs, which as far as possible enable treatment in the least restrictive environment for patients of the service.
- To provide support for families of people with mental illness and to ensure that they and patients are well informed about mental illnesses and their treatment.
- Observe, record and report general and specific mental, physical and social conditions of patients which may be indicative of a change in their condition.
- Attendance at Clinical Governance Meetings as required.
- Ensure all records are kept current with timely and accurate documentation of the patient's progress.
- Ensure compliance with the Mental Health Act.

About the Department

Austin Health's Mental Health Division provides care and services through a comprehensive range of teams to meet the needs of mental health consumers and carers throughout Victoria. Services in the Mental Health Division are located across Austin Health and in the community.

The Mental Health Division incorporates four program areas:

- **Triage, Assessment and Planning Service**
- **Adult Mental Health Services**
- **Infant, Child and Youth Mental Health Services**
- **Mental Health Specialty Services**

All Mental Health Services work within a clinical framework that promotes recovery-oriented practice and supported decision making. This approach to client wellbeing builds on the strengths of the individual working in partnership with their treating team. It encompasses the principles of self-determination and individualised treatment and care.

Purpose and Accountabilities

Role Specific:

- Provide comprehensive and high quality routine psychiatric services to patients at Austin Health and demonstrate clinical leadership in service delivery, primarily in the Emergency services of Austin Health, including Child and Youth Triage, Youth Crisis Assessment and Treatment Team. The role will also encompass providing clinical leadership of service delivery to child and youth clients engaged with Emergency Psychiatric Services, in the Emergency Department at Austin and youth engaged with the Psychiatric Assessment and Planning Unit.
- Potential for input including but not limited to in-patient services, out-patient services, community health and inter-department liaison services.
- Undertake collaborative clinical services, governance and teaching and supervisory duties as agreed with the Medical Director of MH Division.
- Undertake special mental health services or related clinical procedures as identified within your scope of clinical practice
- Share equitably in on-call duties.

Leadership and Management

(Role of the governing body, leadership & direction)

- To provide secondary and tertiary consultation to other professionals providing services to people with mental illness within the Division.
- Participate in education sessions.
- Participate in professional activities outside Austin Health.
- Comply with the profession's Code of Ethics.
- Function in accordance with Legislation affecting psychiatric practice.
- Use and promote effective communication and interpersonal skills.
- Act to rectify unsafe practice or unprofessional conduct.
- Maintain current professional knowledge and skills.

Human Resources Management

(Includes recruitment, performance management, workplace relations, staff support)

- To supervise the work of registrars and HMO's of the service and be available to them

for consultation as necessary.

- Ensure that all staff are familiar with Occupational Health and Safety requirements and regulations.
- To be familiar with emergency, fire and evacuation procedures and policies.

Information Management

(Includes information management practices, systems, information technology)

- To ensure there is adequate documentation on patient care and in particular ensure diagnoses are recorded, management plans and discharge plans are completed on in-patients and treatment plans are developed and regularly updated in regard to community patients.
- Ensure that all access to and knowledge of confidential material, including statutory, clinical and administrative, in any medium, is kept and maintained by all staff in a confidential manner, on the understanding that inappropriate and unapproved release of such information may result in termination of employment.
- Complete documentation in accordance with Austin Health MH Division, Austin Health requirements and Mental Health Act 1986.
- To ensure that all aspects of service are compliant with MHA.
- Assist in identifying gaps in the service system.
- Communicate, interpret and ensure Psychiatric Services philosophy, objectives, policies and procedures are implemented.
- Participate in the formulation and periodic review of Psychiatric Service policies and procedures.
- Participate in the development, implementation and evaluation of Quality Improvement Activities.
- Attend meetings as requested.
- Regularly report on the performance of all functions.

Safe Practice and Environment

(Includes Health & Safety systems)

- Promote maintenance of a safe environment for all consumers and staff in accordance with hospital policy.
- Ensure all members of staff are familiar with Occupational Health and Safety requirements and regulations.
- Take reasonable steps to safeguard consumers, other staff and members of the public from infection and be familiar with the concepts of hospital infection control policies.
- Ensure adequate medications, supplies and equipment are available, maintained and utilised economically.
- Understand hospital emergency, fire and evacuation procedures and policies.

Improving Performance:

(In care and service delivery)

- To develop collaborative relationships with other service providers to ensure the best outcomes for people with mental illness.
- To participate in educational programs of the service, including community education.
- To provide formal teaching for trainee psychiatrists and medical students and be involved in Austin Health's training programs.
- To ensure that clinical and experimental research is ethically conducted.
- Attend relevant education programs, maintaining a commitment to personal and professional development.

- Complete personal objectives annually, or as requested.
- Promote an atmosphere which is conducive to learning for staff, patients/carers, relatives and significant others.
- Actively promote and participate in quality improvement activities by initiating and conducting relevant activities and taking action to ensure best possible outcomes for patients and the organisation.
- Identify opportunities for review of practices/patient care and initiate best practice ideals.

Performance Appraisal/Review:

- Review of appointment will occur at three months.
- 12 monthly on anniversary of appointment.
- Appraisal/review shall incorporate the assessment of Key Priorities and Performance Objectives.
- Performance shall be generally in line with guidelines of:
 - Austin Health Policies and Procedures
 - National Standards for Mental Health Clinicians

Teaching, Training and Research:

- Contribute to the supervision, education and training of junior medical, nursing and other clinical staff, including participating in their performance appraisal and feedback processes.
- Participate in both undergraduate and postgraduate teaching activities.
- Commitment to facilitate, conduct and participate in clinical and/or basic research.
- Participate in the auditing and review of clinical practices to improve clinical outcomes.

All Employees:

- Comply with Austin Health policies & procedures, as amended from time to time, which can be located on the intranet (The Hub): <http://eppic/>
- Report incidents or near misses that have or could have impact on safety - participate in identification and prevention of risks
- Comply with the Code of Conduct

People Management Roles:

- Ensure clear accountability for quality and safety within the department
- Ensure incident management systems are applied and a response to local issues and performance improvement occurs; ensure the risk management system is functional
- Be aware of and comply with the core education, training and development policy.

Credentialing and Scope of Clinical Practice

Core Scope of Clinical Practice – *Procedures, therapies and competencies that a Fellow from the respective specialist medical college would be competent in practicing. This only applies to practice at Austin Health and its campuses/services.*

The core SoCP in Psychiatry includes:

- health problems and mental illness, which fosters the formation of a therapeutic alliance.
- Elicit thorough and relevant histories from people with mental health problems and

mental illness, perform comprehensive mental status examinations and document these accurately.

- Assess accurately situations where the level of disturbance is severe and risk of adverse events, such as injury to self or others, may be high.
- Assess the person's presentation in the context of his/her personality, developmental stage, resilience and coping mechanisms.
- Take account of the person's indigenous or ethnic and cultural background.
- Determine which further investigations are appropriate for achieving a comprehensive understanding of each person with mental health problems and mental illness.
- Integrate the information obtained from people with mental health problems and mental illness and carers into a formulation of the case in which relevant predisposing as well as precipitating, perpetuating and protective factors are highlighted.
- Utilise a widely accepted diagnostic system to assist in making the diagnosis (and differential diagnosis) in each case.
- Recognise the specific issues in the assessment of people with mental health problems and mental illness related to the utilisation of the Mental Health Act Victoria.
- Develop and implement a clear, competent care plan, informed by research and current best practice, integrating biological, psychological, social and cultural interventions according to the needs of each person with mental health problems and mental illness.
- Routinely re-evaluate diagnostic and management decisions to monitor their appropriateness and thus ensure optimal care.
- Appropriately obtain and document informed consent for treatment whenever possible.
- Offer treatment in the most appropriate setting for the individual concerned, utilising the least restrictive option for that person.
- Use humanely the provisions for involuntary hospitalisation and treatment, mindful of the major implications of such hospitalisation for the person with mental health problems and mental illness and his/her carers.
- Develop skills in establishing and maintaining a therapeutic alliance.
- Recognise and apply the principles of long-term care and rehabilitation for those people with chronic mental health problems.
- Use knowledge of the implications of co-existing medical illness to modify treatment appropriately.
- Recognise and utilise the contributions of non-medical professionals in the care of people with mental health problems and mental illness, and collaborate effectively with these professionals to provide optimal care.
- Demonstrate a finely developed ability to communicate clearly, considerately and sensitively with people with mental health problems and mental illness, carers, other health professionals and members of the general public, in a wide variety of settings.
- Use professional interpreters appropriately.
- Keep adequate records of the history and mental status of each person with mental health problems and mental illness, as well as of significant interactions with people with mental health problems and mental illness, carers, and other professionals.
- Where possible, work with people with mental health problems and mental illness, and carers, to develop a collaborative management plan.
- Demonstrate leadership skills in settings where clinical direction is required.
- Demonstrate skills appropriate for taking on a supervisory role with students, junior

colleagues or other professionals seeking supervision in psychiatry.

- Develop skills necessary to elicit and assess the perspectives of people with mental health problems and mental illness and carers on psychiatric services delivery, including, where appropriate, skills facilitating empowerment of people with mental health problems and mental illness.
- Develop skills necessary to work in a multidisciplinary environment.
- Develop skills necessary to liaise with non-psychiatrist doctors and other health care professionals in the management of physical/psychiatric comorbidity.

This will be assumed if the Psychiatrist has a Fellowship of the Royal Australian and New Zealand College of Psychiatrists or equivalent and an ongoing continuous practice in this specialty.

Extended Scope of Clinical Practice – Procedures, therapies and competencies that a Fellow from the respective specialist medical college would be competent in practicing after additional training, qualifications and experience as determined by the Director/Head of Unit.

The Director/Head of Unit is expected to apply guidelines from the respective specialist medical college and/or appropriate state, national and international bodies. Where guidelines are not explicitly available, the Director/Head of Unit must apply ‘best-practice’ principles to ensure safe clinical care.

- **Child & Adolescent Psychiatry or Youth Psychiatry**
Qualification or significant experience in the provision of psychiatric care to either child and adolescent populations or youth populations, including knowledge of developmental frameworks, typical presentations, involvement of families and appropriate systems, and legal and ethical considerations in children and young people.

Emergency/Life threatening situation – In a medical emergency situation, any medical staff member who is credentialed at Austin Health is permitted to provide necessary patient care, as best able, and outside their defined scope of clinical practice in order to provide life-saving measures and/or to prevent serious harm.

Please note – Recognising the dynamic and rapidly advancing nature of medical practice, if you believe a novel competence, practice or procedure should be included within your specialty’s scope of clinical practice, please speak to your Head of Unit and refer to the ‘Introduction of a New Technology / Clinical Practice’ policy on the HUB (<http://eppic//Document/1193>).

For general accreditation the following need to be satisfied

- Demonstrated continuing professional development
- Regular attendance at audit
- Participation in one or more of the following
 - Teaching or research
 - Organising audit
 - Clinical governance
 - Other role within Austin Health but outside of the unit/specialty
 - College role

For each area where special expertise needs to be demonstrated

Some or all of the following criteria will be used to assess accreditation

- Specialist training or a specific fellowship
- Significant accumulated total experience in the field
- Recent experience (adequate number of cases per year in previous years)

- Satisfactory completion of an acceptable outside organisations credentialing requirements.

Selection Criteria

Essential Knowledge and skills:

- Must be a registered Medical Practitioner in Australia with the Australian Health Practitioner Regulation Agency (AHPRA).
- Fellowship of the Royal Australian and New Zealand College of Psychiatrists or equivalent post graduate specialist qualification.
- Have an interest in access, frontline assessment and Liaison Psychiatry settings.
- Have an interest in child and youth mental health
- Experience in providing services and demonstrated commitment to high quality patient focused care to people with serious mental illness.
- A commitment to community approaches to the care of the mentally ill and providing support for their families.
- Knowledge of the Mental Health Act and the Disability Act.
- An understanding of child protection legislation and responsibilities.
- A capacity to provide high quality supervision and teaching to other mental health professionals.
- A commitment to continuing education.
- Demonstrated interest in engagement, teamwork and collaboration.
- Demonstrated ability to communicate effectively at all levels.
- Demonstrated understanding of, and commitment to Clinical Governance.
- Must hold a current Working with Children Check (WWC Check) in compliance with the Working with Children Act 2005.

Desirable but not essential:

- RANZCP Certificate of Advanced Training in Child and Adolescent Psychiatry, or equivalent experience in Youth Psychiatry.
- Demonstrated experience with a variety of liaison psychiatry settings and front end of services.
- Demonstrated commitment and ongoing activity in research and/or clinical audit activities.
- Involvement in teaching and training of medical, technical and nursing staff, including at undergraduate and post-graduate level.
- Attendance and active involvement in relevant departmental, organizational and external meetings (i.e. College, Association and National/International bodies).

General Information

Austin Health is a Child Safe Environment

Austin Health is committed to child safety. We want children to be safe, happy and empowered. We support and respect all children, as well as our staff and volunteers. Austin Health has zero tolerance of child abuse, and all allegations and safety concerns will be treated seriously in line with legal obligations and our policies and procedures.

Equal Opportunity Employer

Applications from Aboriginal and Torres Strait Islanders are encouraged to apply. For more information about working at Austin Health, please follow this link to Austin Health's Aboriginal Employment website:
