Position purpose

Austin Health is seeking an experienced neurologist to provide ward service in General Neurology.

The Consultant Neurologist will provide high-quality, patient-centred neurological care with specialist expertise in acute general neurological disorders including acute neuromuscular disorders (GBS, MG), neuroimmunology & autoimmune encephalitis. The role includes responsibility for inpatient (ward-based) neurological services, consultation-liaison activities, and participation in multidisciplinary care. The position contributes to clinical leadership, education, service development, and quality improvement within the Department of Neurology.

1 session a week (2 months of ward service). The appointment is for a part-time on-going contract. Flexibility for rostering and Oncall weekend work will be expected.

About the Neurology Department

The Department of Neurology is one of the largest Neurology unit in Victoria. It has established an international reputation in stroke, epilepsy and multiple sclerosis. All areas of neurology are covered by this comprehensive unit. A comprehensive investigation service is maintained including EMG, EEG, Doppler Ultrasound and MRI. The Neurodiagnostic Laboratory is co-located with the Neurology ward on level 6 of the Austin Tower. The Department of Neurology is part of the Division of Specialty Medicine and Statewide Services. different health jurisdictions. The appointed Austin Health neurologist will support the neurologist in South Australia.

Position responsibilities

Role Specific:

- Perform daily ward rounds (business days) during the allocated months for patients admitted with general neurological problems
- Participate in unit meetings and activities
- Participate in the on-call roster at a minimum of 4 weeks a year
- Provide a consultative service to other units as required within outpatient setting
- Supervise trainees and junior medical staff.
- Assist the Director of Neurology in administrative duties as required including the development and review of policies and procedures for the provision of services, updating as needed to reflect best practice and evidence-based medicine
- Assist in the evaluation of the delivery of services and in implementing appropriate quality and risk management initiatives.
- Demonstrate a commitment to working as a team member with peer medical, junior medical, nursing and other clinical staff to provide efficient, safe and quality care across the continuum

Teaching, Training and Research:

- Contribute to the supervision, education and training of junior medical, nursing and other clinical staff, including participating in their performance appraisal and feedback processes.
- Participate in both undergraduate and postgraduate teaching activities.
- Commitment to facilitate, conduct and participate in clinical and/or basic research.
- Participate in auditing and reviewing clinical practices to improve clinical outcomes.

General information

Cultural safety

Austin Health is committed to cultural safety and health equity for Aboriginal and/or Torres Strait Islander People. We recognise cultural safety as the positive recognition and celebration of cultures. It is more than just the absence of racism or discrimination, and more than cultural awareness and cultural sensitivity. It empowers people and enables them to contribute and feel safe to be themselves.

Equal Opportunity Employer

We celebrate, value, and include people of all backgrounds, genders, identities, cultures, bodies, and abilities. We welcome and support applications from talented people identifying as Aboriginal and/or Torres Strait Islander, people with disability, neurodiverse people, LGBTQIA+ and people of all ages and cultures.

Austin Health is a child safe environment

We are committed to the safety and wellbeing of children and young people. We want children to be safe, happy and empowered. Austin Health has zero tolerance for any form of child abuse and commits to protect children. We take allegations of abuse and neglect seriously and will make every effort to mitigate and respond to risk in line with hospital policy and procedures.
