Austin Health acknowledges the Traditional Custodians of the land on which we operate, the Wurundjeri Woi Wurrung People of the Kulin Nation. We pay our respects to Elders past and present and extend that respect to all Aboriginal and Torres Strait Islander peoples.

Position purpose

The Grade 2 Orthotist / Prosthetist will be recognised as an established clinician in a specialist area as recognised by the Employer and demonstrate consolidated skills and professional knowledge.

They will motivate and inspire others through the provision of quality and patient-focussed orthotic and /or prosthetic clinical services within both Inpatient and Outpatient Streams (acute and subacute).

Actively participate as a team member in the O&P Department and in relevant inter-disciplinary teams.

They are expected to exhibit a commitment to professional development and departmental continuous improvement, with a focus on extending their individual practices and performance to provide the most optimal clinical outcomes.

About the Directorate/Division/Department

This position is based within the Orthotic and Prosthetic Department (O&P). This department forms part of the Division of Allied Health. The Division of Allied Health comprise the following:

- **Allied Health Therapies** – including Physiotherapy, Social Work, Speech Pathology, Occupational Therapy, Nutrition and Dietetics, Orthotics & Prosthetics, Podiatry, Clinical and Neuropsychology (Royal Talbot site) and Creative and Leisure Services
- **Tracheostomy Review and Management Service**
- **Spiritual Care**
- **Language Services**
- **Aboriginal Health Ngarra Jarra Team**

The O&P Department is committed to promoting the highest levels of management for our patients. In realizing this goal, the department will lead and excel in research, teaching and the use of person centered evidence-based practice.

The Department provides services on all three campuses of Austin Health, across all Divisions. The department provides care across the continuum from the Emergency Department through bed based services and ongoing ambulatory care.

The clinician employed in this position reports to the chief of the discipline and is expected to travel across campus as required and adopt a flexible approach to clinical caseload management and the provision of care during periods of planned and unplanned leave. They will also be expected to participate in a weekend (Saturday) roster system and adopt flexible working hours as required.

The department is focused on developing the professional body of knowledge and practice of staff (which is evidence based) in a range of areas to ensure high quality service provision. This is achieved through staff participating in ongoing training and professional development, professional supervision and performance review, research, quality improvement activities and undergraduate and / or post-graduate student teaching. The department has a continuing education, student and quality improvement strategy which is developed and operationalised through senior leadership forums and committees.

Position responsibilities

Clinical Care

Provide excellent evidence based clinical care to a designated patient group.

- Prioritisation and provision of direct clinical services to areas of Austin Health in accordance with case load requirements, including consolidated knowledge of:
 - Amputee prosthetic management
 - High Risk Foot / Diabetic Foot ulcers
 - Pressure injury and prevention
 - Complex lower limb management
- Provide clinical services in accordance with the professional and ethical standards of the Australian Orthotic Prosthetic Association.

Our actions
show we care

We bring
our best

Together
we achieve

We shape
the future

- Manage and demonstrate detailed assessment, care planning and intervention with attention to professional values, skills, knowledge and theory.
- Assessment of patients' functional status and provision of orthoses / prostheses for inpatients and outpatients referred to the Department, including planning, evaluation of treatment; and ongoing treatment plans.
- Demonstrate and maintain high level of specialist knowledge related to clinical practice
- Provide high level consultation regarding clinical care issues to the multidisciplinary team.
- Ability to undertake technical tasks and liaise with technical staff regarding fabrication.
- Negotiate, liaise and advocate with appropriate organisations on behalf of patients, families/significant others.
- Participate in unit multidisciplinary meetings and contribute to treatment care and discharge planning
- Undertake and model evidence based practice principles and interdisciplinary practice in the provision of care
- Provide high level clinical assessment and resulting professional report writing, clinical justification and quoting to third party funding bodies such as NDIS, SWEP, TAC and Workcover.
- Ensure documentation of patient care is in accordance with Austin Health and departmental standards

Clinical leadership

Deliver care within the context of departmental and Austin Health aims and priorities.

- Supports and supervises Grade 1's, Allied Health Assistants, students etc.
- Act as a role model for staff, setting and clearly communicating behavioural expectations.
- Contribute to a team environment which promotes a positive culture, opportunity for learning and development, safety and welfare of employees
- Perform additional administrative duties and projects under direction of the Manager
- Participate in annual performance reviews and development processes in the designated stream
- Complete departmental and organisational administrative activities including data collection, workflow documents, patient attendance reports and billing advice information in a timely manner.

Education and Research

- Initiate and provide teaching/clinical guidance to other members of the department utilising expertise through, for example, direct teaching, team meetings and continuing education forums
- Initiate and provide training and education to hospital staff and other professionals within Austin Health and externally on issues pertaining to their discipline.
- Participate in the organisation and overall management of undergraduate and postgraduate student training in the clinical area of expertise
- Participate in the development and implementation of research projects pertaining to the relevant area of clinical practice as part of the departmental research program
- Present finding of research in scientific publications and at relevant conferences

Quality and Risk

- Assist in the maintenance of adequate stock levels in the department, especially materials and components.
- Actively contribute to the development and continuing improvement of the orthotics and prosthetics service.
- Ensure compliance with mandatory training requirements

**Our actions
show we care**

**We bring
our best**

**Together
we achieve**

**We shape
the future**

- Actively participate in the ongoing identification, assessment, treatment and prevention of risks
- Undertake activities and audits to support compliance with the national standards
- Strive towards continuous improvement, by initiating, participating and continuously evaluating the quality and outcomes of intervention

Professional Development

- Participate in department performance appraisal, supervision and Professional Development Planning process
- Be proactive in attendances to educational courses and in-services as appropriate. Report this in annual PRD.
- Presentations to internal and external professional bodies as required.
- Monitoring of new developments in the orthotic and prosthetic profession. Scope and implement changes with the Manager's approval.
- Maintain and build on current knowledge of relevant literature, clinical development and componentry.
- Set and achieve measurable and achievable goals for yourself.
- Ability to evaluate one's performance and the achievement of goals.
- Participation in quality improvement processes and quality improvement initiatives if required.
- Undertake specific duties and clinical load as directed by the Manager or senior leadership team.

Information Management

- Record in patient medical files according to policy/ procedure and Austin Health documentation standards.
- Adhere to Austin Health's policies for use of Information Technology.
- Meet activity and reporting timelines for projects and committee work.
- Record accurate statistics as per policy and procedures.

- Work across multiple sites as per work requirements and/or directed by management.

General information

Cultural safety

Austin Health is committed to cultural safety and health equity for Aboriginal and/or Torres Strait Islander People. We recognise cultural safety as the positive recognition and celebration of cultures. It is more than just the absence of racism or discrimination, and more than cultural awareness and cultural sensitivity. It empowers people and enables them to contribute and feel safe to be themselves.

Equal Opportunity Employer

We celebrate, value, and include people of all backgrounds, genders, identities, cultures, bodies, and abilities. We welcome and support applications from talented people identifying as Aboriginal and/or Torres Strait Islander, people with disability, neurodiverse people, LGBTQIA+ and people of all ages and cultures.

Austin Health is a child safe environment

We are committed to the safety and wellbeing of children and young people. We want children to be safe, happy and empowered. Austin Health has zero tolerance for any form of child abuse and commits to protect children. We take allegations of abuse and neglect seriously and will make every effort to mitigate and respond to risk in line with hospital policy and procedures.
