About Austin Health

Austin Health is one of Victoria’s largest health care providers. We deliver services for patients across four main sites in Melbourne, in locations across our community, in people’s homes, and within regional hospitals across Victoria. We are an internationally recognised leader in clinical teaching, training and research, with numerous university and research institute affiliations.

We employ approximately 9,500 staff and are known for our specialist work in cancer, infectious diseases, obesity, sleep medicine, intensive care medicine, neurology, endocrinology, mental health and rehabilitation.

Our vision is to shape the future through exceptional care, discovery and learning. This is supported by our values which define who we are, shape our culture and the behaviours of our people.

We aim to provide an inclusive culture where all staff can contribute to the best of their ability and strive to develop further. We recognise that our people are our greatest strength. We want them to thrive, be their best selves and feel engaged, safe and empowered. To achieve this, diversity and inclusion is essential to our culture and our values. You can view our current Diversity and Inclusion Plan [here](#).

Position Purpose

To provide Consultant Psychiatric services to the Adolescent Inpatient Psychiatry Unit (ages 13-18 years) and to the Specialist Eating Disorders Service for children and youth (ages 0-25 years), and the Mental Health Division (MHD) as directed/required. The Consultant Psychiatrist will work in partnership with a team leader and programme manager to ensure that services provided to the community are the highest standard, emphasizing excellence, service, care, staff performance, cost efficiency, research and education within a comprehensive clinical governance framework.

The Consultant Psychiatrist provides clinical leadership within the Mental Health Division of Austin Health and ensures compliance with:

- National Practice Standards for the Mental Health Workforce 2002
- National Safety and Quality Health Service (NSQHS) Version 2019
- Austin Health Code of Conduct

And they will participate in on-call rosters, ECT rosters or other duties as required by Mental Health Division Medical Director or delegate.

The Consultant Psychiatrist is expected to provide high-level psychiatric services within their approved scope of clinical practice as part of the Mental Health Division at Austin Health and is expected to provide routine specialist mental health services and cover “on call” after hours.

The Consultant Psychiatrist role is a senior Medical Position and carries with it the professional responsibilities of clinical leadership, teaching and training as well as administrative requirements.

Key Priorities

- To oversee the delivery, development and growth of clinical services in the adolescent inpatient unit and the community specialist eating disorders service multidisciplinary team within the Austin Mental Health Division, ICYMHS Directorate in line with the key principles of the Victorian Mental Health Royal Commission into Victoria’s Mental Health System, including but not limited to, an emphasis on consumer focussed recovery, accessibility, quality of care, evidence based treatments that are safe and therapeutic and a holistic whole person approach.
- To ensure that the clinical services within Austin Mental Health Division ICYMHS provides high quality assessment, continuity of care and treatment programs in line with the key principles of the Royal Commission into Victoria’s Mental Health System.
- To provide clinical governance and leadership to the inpatient and the eating disorders teams within the Austin Mental Health Division ICYMHS Directorate.
- To work closely with the Clinical Director ICYMHS, other Consultant Psychiatrists, ICYMHS Program Managers and Divisional Manager, to develop clinical services within ICYMHS and to deliver on the shared priorities of the Mental Health Division.
- To ensure that all aspects of consumers and their families are considered and supported in a developmentally appropriate way.

About the Mental Health Division

Austin Health's Mental Health Division provides care and services through a comprehensive range of teams to meet the needs of mental health consumers and carers throughout Victoria. Services in the MH Division are located across Austin Health and in the community.

These services include:

Adult Services incorporating:

- North East Area Mental Health Service (NEAMHS)

Triage, Assessment and Intake Planning

- Clinical Health Psychology
- Consultation Liaison (CL) Psychiatry

Infant, Child & Youth Mental Health Services (ICYMHS)

- State-wide and regional responsibility
- Inpatient, outpatient and community

Specialty Services with a state-wide role incorporating:

- Psychological Trauma Recovery Service
- Brain Disorders Program
- Transitional Support Unit

Psychiatric Nursing Development Education Centre (PNDEC)

Consumer and Carer Co-ordination

Psychiatry Training, Research and Development Unit

Infant Child and Youth Mental Health Service

The ICYMHS is a service with multiple teams servicing the north-eastern catchment of Melbourne Metropolitan (local government areas of Banyule, Nillumbik, Darebin, Whittlesea, Yarra and Boroondara). Young people eligible for the service are 0 to 25 years with a current shift towards Royal Commission recommendations. We currently have two inpatient units (a child and an adolescent one), two outpatient community teams, four specialist teams (Adolescent Intensive Management, Youth Early Psychosis, Youth Early Treatment Team Initiative, CYMHS in Schools Early Action) and some individual specialist roles. Many of the specialist teams have an outreach focus to the community.

Specialist Eating Disorders Service

The Specialist Eating Disorders Service (SEDS) is a multidisciplinary clinical team that is responsible for:

- Direct provision of specialised eating disorders care in outpatient settings including intake, triage, waitlist management, assessment and treatment, in partnership with the Case Manager and Consultant Psychiatrist.
- Providing clinical support and guidance to ICYMHS case managers for eating disorders cases.
- Liaising with acute medical and mental health inpatient staff to support

treatment and discharge planning for consumers admitted to inpatient units.

- Coordination of eating disorders care, including case reviews, the eating disorders registry and service-level monitoring and evaluation.

Adolescent Unit

The Marian Drummond Adolescent Unit (Inpatient Service for teenagers 13-17 years) is an 11-bed unit, which provides assessment and treatment to teenagers who require more intensive treatment than can be offered in an outpatient setting. The unit has a small High Dependency area and a seclusion room. The unit accepts has a catchment area covering the six LGA serviced by Austin ICYMHS and rural areas serviced by Bendigo ICYMHS and Mildura CAMHS.

Purpose and Accountabilities

Role Specific:

- To provide comprehensive and high quality evidence based psychiatric services to young consumers and their families or support networks in the Inpatient and Specialist Eating Disorders Service Teams at Austin Health.
- To undertake collaborative clinical services, governance and teaching and supervisory duties as agreed with the ICYMHS Clinical Director of MH Division.
- To work closely with ICYMHS Program Managers and provide clinical governance and leadership to the Inpatient and Specialist Eating Disorders Service Teams within the Austin Mental Health Division ICYMHS Directorate.
- To provide expert clinical leadership, ensuring clinical safety and quality processes within the Inpatient and Specialist Eating Disorders Service Teams in ICYMHS align with the vision and functioning of the Austin Mental Health Division and to participate in safety and quality systems in Austin Health more generally.
- To provide consistent clinical governance, oversight and leadership to all staff within the Inpatient and Specialist Eating Disorders Service Teams clinical services, especially high quality leadership and strong care for the medical practitioners working in the service, to ensure they are able to deliver high quality clinical care. To provide clinical cover, clinical care and coordination of clinical services within ICYMHS as needed.
- To provide medical workforce and wellbeing leadership and coordination to all medical practitioners in the Inpatient and Specialist Eating Disorders Service Teams clinical services and as delegate for the Clinical Director ICYMHS as required.
- To provide medical leadership for physical health aspects of mental health care in the Inpatient and Specialist Eating Disorders Service Teams clinical services in ICYMHS.
- To participate in all aspects of clinical governance in the Inpatient and Specialist Eating Disorders Service Teams clinical services and ICYMHS as needed and to ensure high standards of clinical work, medical documentation, quality processes, compliance with the Mental Health Act and management of complaints and feedback.
- To share equitably in on-call duties.

Leadership and Management

(Role of the governing body, leadership & direction)

- To provide high quality clinical governance and strong clinical leadership to the clinical services and to support clinical governance and leadership within ICYMHS.
- To have and demonstrate consistently high standards for personal behaviour, communication and interpersonal skills

- To provide secondary and tertiary consultation to other professionals providing services to people with mental illness within the Division.
- To actively support education, training and research in the Division
- To meet high standards for own professional development, adherence to the professions Code of Ethics and to function in accordance with all legislation related to the delivery of mental health care.
- To act promptly to address any unsafe or substandard clinical practice or professional misconduct brought to awareness

Human Resources Management

Business Management

- Support to the Austin Mental Health ICYMHS leadership team and contribution to the development of strategic plans for clinical services within ICYMHS.
- Work closely with the with the Clinical Director ICYMHS, ICYMHS Program Managers and Divisional Manager to constantly assess performance, including clinical activity indicators and expenditure, so that the clinical services provided best match clinical needs.
- Be aware of and support budgetary processes within the Directorate to ensure the resources are allocated appropriately to best support high quality clinical care.

Improving Performance and Culture

- Develop and promote a culture of innovation, excellence, evidence based and consumer focussed care.
- Work closely with the ICYMHS leadership team to deliver a collaborative, psychologically safe and performance enhancing culture with high transparency, integrity and high accountability.
- Develop and maintain best practice processes to ensure an effective proactive approach to risk assessment and management.
- Oversight of clinical processes that support maximal consumer flow through all parts of ICYMHS and ensure that all staff participate actively in effective treatment planning.
- Develop and maintain collaborative relationships with other service providers to ensure the best outcomes for people with mental illness.
- Ensure high quality support for community practitioners is provided by the Austin ICYMHS Directorates through secondary consultation, education and networking.
- Ensuring the service meets the National Standards for Mental Health Services, NSQSHS, and maintains accreditation with all required standards.
- Provide a commitment to participation in all Mental Health Division Leadership group activities with consistent attendance, participation in and external support.

Teaching, Training and Research

- Contribute to a culture of research and education and to support and facilitate the development of this in all aspects of the Austin Mental Health Division.
- Contribute to the supervision, education and training of junior medical, nursing and other clinical staff, including participating in their performance appraisal and feedback processes as needed.
- Participate in formal teaching for both undergraduate and postgraduate staff, especially for medical students, psychiatric registrars, and other medical practitioners
- Commitment to facilitate, conduct and participate in clinical and/or basic research and to have clinical oversight of all research activities in the ICYMHS & TAPS Directorates with special regard for the high standards of ethical practice

- Participate in quality improvement processes including but not limited to the auditing and review of clinical practices to improve clinical outcomes.
- Attend relevant education programs, maintaining a commitment to personal and professional development.

Information Management

- To support high quality information management across ICYMHS.
- To ensure there is high quality clinical documentation with high standards for risk management, formulation and the documentation of rationales for all key clinical decisions. This includes accurate and defensible clinical histories, mental state assessments and diagnoses are recorded, that management plans and discharge plans are of a high standard and reflect the contemporary evidence base and a commitment to consumer focussed care and recovery and that all plans are regularly updated.
- Ensure that all access to and knowledge of confidential material, including statutory, clinical and administrative, in any medium, is kept and maintained by all staff in a confidential manner, on the understanding that inappropriate and unapproved release of such information may result in termination of employment.
- Complete documentation in accordance with Austin Health Mental Health Division, Austin Health requirements and Mental Health Act.
- To ensure that all aspects of service are compliant with the Mental Health Act.
- Communicate, interpret and ensure Psychiatric Services philosophy, objectives, policies and procedures are implemented.
- Participate in the formulation and periodic review of Psychiatric Service policies and procedures.
- Participate in the development, implementation and evaluation of Quality Improvement Activities.

Safe Practice and Environment

- Promote maintenance of a safe environment for all consumers and staff in accordance with hospital policy.
- Ensure all members of staff are familiar with Occupational Health and Safety requirements and regulations.
- Take reasonable steps to safeguard consumers, other staff and members of the public from infection and be familiar with the concepts of hospital infection control policies.
- Ensure adequate medications, supplies and equipment are available, maintained and utilised economically.
- Understand hospital emergency, fire and evacuation procedures and policies.

Performance Appraisal/Review:

Review of appointment will occur at three months.

- 12 monthly on anniversary of appointment.
- Appraisal/review shall incorporate the assessment of Key Priorities and Performance Objectives.
- Performance shall be generally in line with guidelines of:
 - Austin Health Policies and Procedures
 - National Standards for Mental Health Clinicians

All Employees:

- Comply with Austin Health [policies & procedures](#) as amended from time to time

- Comply with the Code of Conduct and uphold our values, and diversity and inclusion commitments
- Maintain a safe working environment for yourself, colleagues and members of the public. Escalate concerns regarding safety, quality and risk to the appropriate staff member, if unable to rectify yourself
- Comply with the principals of patient centred care
- Comply with Austin Health mandatory training and continuing professional development requirements
- Work across multiple sites as per work requirements and/or directed by management

People Management Roles:

- Maintain an understanding of individual responsibility for safety, quality & risk and actively contribute to organisational quality and safety initiatives
- Ensure incident management systems are applied and a response to local issues and performance improvement occurs
- Support staff under management to comply with policies, procedures and mandatory training and continuing professional development requirements
- Be aware of and comply with the core education, training and development policy.

Credentiaing and Scope of Clinical Practice

Core Scope of Clinical Practice – Procedures, therapies and competencies that a Fellow from the respective specialist medical college would be competent in practicing. This only applies to practice at Austin Health and its campuses.

All Psychiatrists should be competent in the following areas.

Theoretical/Patient Management Skills

- Demonstrate an empathic approach to the assessment of all people with mental health problems and mental illness, which fosters the formation of a therapeutic alliance.
- Elicit thorough and relevant histories from people with mental health problems and mental illness, perform comprehensive mental status examinations and document these accurately.
- Assess accurately situations where the level of disturbance is severe and risk of adverse events, such as injury to self or others, may be high.
- Assess the person's presentation in the context of his/her personality, developmental stage, resilience and coping mechanisms.
- Take account of the person's indigenous or ethnic and cultural background.
- Determine which further investigations are appropriate for achieving a comprehensive understanding of each person with mental health problems and mental illness.
- Integrate the information obtained from people with mental health problems and mental illness and carers into a formulation of the case in which relevant predisposing as well as precipitating, perpetuating and protective factors are highlighted.
- Utilise a widely accepted diagnostic system to assist in making the diagnosis (and differential diagnosis) in each case.
- Recognise the specific issues in the assessment of people with mental health problems and mental illness related to the utilisation of the Mental Health Act Victoria.

- Develop and implement a clear, competent care plan, informed by research and current best practice, integrating biological, psychological, social and cultural interventions according to the needs of each person with mental health problems and mental illness.
- Routinely re-evaluate diagnostic and management decisions to monitor their appropriateness and thus ensure optimal care.
- Appropriately obtain and document informed consent for treatment whenever possible.
- Offer treatment in the most appropriate setting for the individual concerned, utilising the least restrictive option for that person.
- Use humanely the provisions for involuntary hospitalisation and treatment, mindful of the major implications of such hospitalisation for the person with mental health problems and mental illness and his/her carers.
- Develop skills in establishing and maintaining a therapeutic alliance.
- Recognise and apply the principles of long-term care and rehabilitation for those people with chronic mental health problems.
- Use knowledge of the implications of co-existing medical illness to modify treatment appropriately.
- Recognise and utilise the contributions of non-medical professionals in the care of people with mental health problems and mental illness and collaborate effectively with these professionals to provide optimal care.
- Demonstrate a finely developed ability to communicate clearly, considerately and sensitively with people with mental health problems and mental illness, carers, other health professionals and members of the general public, in a wide variety of settings.
- Use professional interpreters appropriately.
- Keep adequate records of the history and mental status of each person with mental health problems and mental illness, as well as of significant interactions with people with mental health problems and mental illness, carers, and other professionals.
- Where possible, work with people with mental health problems and mental illness, and carers, to develop a collaborative management plan.
- Demonstrate leadership skills in settings where clinical direction is required.
- Demonstrate skills appropriate for taking on a supervisory role with students, junior colleagues or other professionals seeking supervision in psychiatry.
- Develop skills necessary to elicit and assess the perspectives of people with mental health problems and mental illness and carers on psychiatric services delivery, including, where appropriate, skills facilitating empowerment of people with mental health problems and mental illness.
- Develop skills necessary to work in a multidisciplinary environment.
- Develop skills necessary to liaise with non-psychiatrist doctors and other health care professionals in the management of physical/psychiatric comorbidity.

This will be assumed if the Psychiatrist has a Fellowship of the Royal Australian and New Zealand College of Psychiatrists or equivalent and an ongoing continuous practice in this speciality.

Extended Scope of Clinical Practice – Procedures, therapies and competencies that a Fellow from the respective specialist medical college would be competent in practicing after additional training, qualifications and experience as determined by the Head of Unit* has been completed. This only applies to practice at Austin Health and its campuses.

- Child & Adolescent Psychiatry
Skills in:

- Assessing and managing the mental health of children and adolescents
- Provision of expert, evidence-informed individual and family-focused mental health care to infants, children, adolescents and youth.
- Assessing and managing family relationships.
- Childhood emotional, social and behavioural development.
- Treatments and therapies designed for children and adolescents.
- Coordinating care with other health professionals and systems involved with children and young people.

Emergency/Life threatening situation – In a medical emergency situation, any medical staff member who is credentialed at Austin Health is permitted to provide necessary patient care, as best able, and outside their defined scope of clinical practice in order to provide life-saving measures and/or to prevent serious harm.

For general accreditation the following need to be satisfied

- Demonstrated continuing professional development
- Regular attendance at audit
- Participation in one or more of the following
 - Teaching or research
 - Organising audit
 - Clinical governance
 - Other role within Austin Health but outside of the unit/specialty
 - College role

For each area where special expertise needs to be demonstrated

Some or all of the following criteria will be used to assess accreditation:

- Specialist training or a specific fellowship
- Significant accumulated total experience in the field
- Recent experience (adequate number of cases per year in previous years)
- Satisfactory completion of an acceptable outside organisations credentialing requirements.
