Austin Health acknowledges the Traditional Custodians of the land on which we operate, the Wurundjeri Woi Wurrung People of the Kulin Nation. We pay our respects to Elders past and present and extend that respect to all Aboriginal and Torres Strait Islander peoples.

### Position purpose

Reporting to the Director of Mental Health Psychology, the Principal Clinical Psychology Educator is a senior leadership role responsible for setting the strategic direction for psychology education within the Mental Health Division, Austin Health. This position leads the psychology education team and drives initiatives that ensure psychologists are supported to work at the top of their scope within contemporary models of care to deliver high quality patient care.

The Principal Clinical Psychology Educator provides vision and leadership to enhance education and training for the psychology workforce. This includes oversight of clinical education, supervision, professional development, and training programs for psychologists. The role is accountable for strategic planning, research, evaluation, and quality improvement in psychology education.

Working collaboratively with other senior education leads across disciplines, the Principal Clinical Psychology Educator contributes to the organisation-wide education and workforce agenda. The position also liaises with external stakeholders, including universities, training providers, and the

broader education sector, to strengthen partnerships and support workforce development and student placements.

Through leadership in research, educational innovation, and stakeholder engagement, the Principal Clinical Psychology Educator ensures that psychology education programs are evidence-based, evaluated for impact, and designed to meet the evolving needs of patients and clinicians.

## About the Mental Health Division

Austin Health's Mental Health Division provides care and services through a comprehensive range of teams to meet the needs of mental health consumers and carers throughout Victoria. Services in the MH Division are located across Austin Health and in the community.

The Mental Health Division incorporates three program areas:

- **Adult & Older Adult Mental Health Services,**
- **Infant, Child and Youth Mental Health Services, and**
- **Mental Health Specialty Services.**

All Mental Health Services work within a clinical framework that promotes recovery-oriented practice and supported decision making. This approach to client wellbeing builds on the strengths of the individual working in partnership with their treating team. It encompasses the principles of self-determination and individualised treatment and care.

## Position responsibilities

### Leadership

- Lead the development of new psychology education programs, professional development, training and other educational initiatives across the Mental Health Division. Where appropriate, training opportunities to consider Core Competencies for Psychologists, the Psychology Code of Conduct, Evidence Based Practice, Austin Health training considerations and other relevant frameworks.
- Ensure strategic alignment of education programs across the Mental Health Division, and in line with organisational priorities.
- Provide expert advice pertaining to the practice of psychology and education within the Mental Health Division, and to others internal and external to the organisation.
- Provide professional leadership to the Grade 4 psychology education team including the Clinical Psychology Educator(s) and Clinical Neuropsychology Educator(s).
- Undertake an Austin Health Performance Review and Development (PRD) plan annually for all direct reports.
- Support the strategic reform associated with the Royal Commission into Victoria's Mental Health System - for example, training for the peer workforce, or planning / coordinating education to carers and relatives of clients on psychological matters in a mental health service.
- Coordinate the Austin Health Mental Health Early Career (registrar) program and Provisional Psychology (student) program.
- Actively participate in psychology meetings within the Mental Health Division, governance meetings and other committees and working parties when requested and as appropriate.
- Monitor and promote systems to support adherence to professional practice standards of psychologists.

Our actions  
show we care

We bring  
our best

Together  
we achieve

We shape  
the future

[austin.org.au](http://austin.org.au)

- Provide positive leadership and role modelling which promotes effective teamwork, encourages cohesion and ensures employees feel valued and contributions are acknowledged.
- Work closely and foster strong relationships with operational, medical, nursing, allied health and other colleagues.
- Be a representative of psychology expertise within Austin Health and external stakeholders i.e. universities, Psychology Board of Australia (PsyBA) and others as required or directed.

### **Education, professional development and supervision**

- Provide evidence and competency based professional supervision (individual and/or group) and ensure the governance of supervision across the department.
- Contribute towards the coordination of clinical supervision for psychologists within the service.
- Design new education programs and measure the effectiveness of service delivery including through the analysis of data and the use of value-based healthcare principles and outcome and experience measures.
- Oversight of professional development activities of psychologists across the Mental Health Division.
- Provision of specialist training on topics related to psychological practice as relevant.
- Oversight of training programs for post-graduate students on placement and the Early Career (registrar) program.

### **Research and teaching**

- Develop an education research agenda and plan to contribute to the knowledge base of psychology education.
- Co-ordinate, promote and plan Austin Health psychology teaching into higher degree university programs as required.
- Facilitate and promote research within the education team and broader psychology clinicians via publications, presentations at conferences or forums (both internal and external).
- Develop and maintain strong working relationships with University partners, that may include supporting post-graduate student programs and providing expert teaching into post-graduate courses.

### **Quality and Risk**

- Participate in the development, implementation, and management of relevant Risk Registers. Be aware of legal, organizational, professional, and staff/patient risks, and constructively assist in their mitigation.
- Undertake activities and audits to support compliance with national health standards.
- Participate and conduct relevant professional audit activities including credential checks consistent with portfolio responsibilities and appropriately report on risks within Austin Health's governance framework.
- Lead quality improvement and evaluation initiatives within psychology education.
- Maintain appropriate statistics, case notes and records, participate in Psychology Department and Allied Health Division meetings as required.
- Other duties, as required.

### **Information Management**

- Maintenance of patient medical records according to relevant policies/ procedures and Austin Health documentation standards.
- Adhere to Austin Health's policies for use of Information Technology.
- Record accurate statistics, as per policy and procedures as relevant.

- Comply with the Austin Health's Code of Conduct policy and the Psychology Code of Conduct, as well as all other policies and procedures (as amended from time to time).
- Comply with all Austin Health mandatory training and continuing professional development requirements.
- Provide proof of immunity to nominated vaccine preventable diseases in accordance with Austin Health's immunization screening policy.
- Work across multiple sites as per work requirements and/or directed by management.

## General information

### Cultural safety

Austin Health is committed to cultural safety and health equity for Aboriginal and/or Torres Strait Islander People. We recognise cultural safety as the positive recognition and celebration of cultures. It is more than just the absence of racism or discrimination, and more than cultural awareness and cultural sensitivity. It empowers people and enables them to contribute and feel safe to be themselves.

### Equal Opportunity Employer

We celebrate, value, and include people of all backgrounds, genders, identities, cultures, bodies, and abilities. We welcome and support applications from talented people identifying as Aboriginal and/or Torres Strait Islander, people with disability, neurodiverse people, LGBTQIA+ and people of all ages and cultures.

### Austin Health is a child safe environment

We are committed to the safety and wellbeing of children and young people. We want children to be safe, happy and empowered. Austin Health has zero tolerance for any form of child abuse and commits to protect children. We take allegations of abuse and neglect seriously and will make every effort to mitigate and respond to risk in line with hospital policy and procedures.
