About Austin Health

Austin Health is one of Victoria's largest health care providers. We deliver services for patients across four main sites in Melbourne, in locations across our community, in people's homes, and within regional hospitals across Victoria. We are an internationally recognised leader in clinical teaching, training, and research, with numerous university and research institute affiliations.

We employ approximately 9,500 staff and are known for our specialist work in cancer, infectious diseases, obesity, sleep medicine, intensive care medicine, neurology, endocrinology, mental health, and rehabilitation.

Our vision is to shape the future through exceptional care, discovery, and learning. This is supported by our values which define who we are, shape our culture and the behaviours of our people.

We aim to provide an inclusive culture where all staff can contribute to the best of their ability and strive to develop further. We recognise that our people are our greatest strength. We want them to thrive, be their best selves and feel engaged, safe, and empowered. To achieve this, diversity and inclusion is essential to our culture and our values. You can view our current Diversity and Inclusion Plan [here](#).

Commitment to Gender Equality

Austin Health is committed to gender equality in the workplace. In developing our [Gender Equality Action Plan](#) we have been guided by the gender equality principles set out in the Gender Equality Act 2020 (Vic). We believe that everyone should live in a safe and equal society, have access to equal power, resources and opportunities and be treated with dignity, respect, and fairness.

About Austin Health Pathology

Austin Health Pathology is a department of Austin Health and provides service to not only Austin Health and the co-located Mercy Hospital for Women, but also to numerous GPs and Specialists in the metropolitan and regional community.

Austin Health Pathology is currently expanding into the Hume, Loddon Mallee and Goulburn Valley areas of regional Victoria, with laboratories in Shepparton, Mildura, Echuca and Swan Hill, and a point-of-care network including Castlemaine, Kerang, Kyneton, Seymour, Kilmore, Cohuna and Kyabram.

Austin Health Pathology is committed to providing high quality patient care through routine and complex diagnostic services, expert advice and support for teaching and research.

Austin Health Pathology is an accredited laboratory with the National Association of Testing Authorities Australia (NATA), the Royal College of Pathologists of Australia (RCPA), National Safety and Quality Health Services Standards (NSQHS), National Pathology Accreditation Advisory Council and Medicare Australia, supported by a network of Collection Centres at hospital sites and within the community.

The Department is managed by a Pathology Executive. This group is committed to providing comprehensive laboratory testing in a manner consistent with the needs of a university teaching hospital and the strategic directions of Austin Health.

Austin Pathology plays a major role in providing teaching and research expertise and facilities to Austin Health and the wider community. Formal lectures, tutorials, seminars and job training are provided to both post graduate and undergraduate students from The University of Melbourne and RMIT. In house research and development, collaborative projects, and clinical trials make up the bulk of the research activities.

Austin Pathology Health at the Heidelberg Campus provides a full pathology service including Anatomical Pathology, Immunology, Blood Transfusion, Haematology, Microbiology and Molecular Diagnostics. Regional Austin Health pathology services are core laboratories with Immunology, Blood Transfusion, Haematology and Microbiology services.

Purpose and Accountabilities

Role Specific:

- Perform, read and interpret laboratory procedures, tests and assays
- Operate and maintain laboratory equipment as per laboratory procedures; including but not limited to validation, verification, calibration, preventative maintenance, safety protocols and Quality Control
- Participate in external Quality Assurance Programs
- Comply with Pathology Quality Management; including, but not limited to, reporting of Quality Incidents and Quality Improvements, document acknowledgement
- Maintain training and competency levels in accordance with documented laboratory methods, procedures and policies
- Participate in the training and education of scientific and technical staff
- Maintain relevant scientific and technological knowledge and skills, including attendance at relevant seminars, lectures and conferences and monitoring relevant scientific literature
- Assist in the preparation and maintenance of documentation required in the laboratory for methods, procedures and processes
- Be aware of, and comply with, NPAAC and NATA standards and other relevant standards and guidelines
- Participate in shift and on-call roster(s) as per relevant department(s)
- Other duties as required by Senior Scientist, Laboratory Manager, Principal Scientist, Operational Manager or Medical Consultant

All Employees:

- Comply with Austin Health [policies & procedures](#) as amended from time to time
- Comply with the Code of Conduct and uphold our values, and diversity and inclusion commitments.
- Maintain a safe working environment for yourself, colleagues, and members of the public. Escalate concerns regarding safety, quality, and risk to the appropriate staff member, if unable to rectify yourself
- Comply with the principals of patient centered care.
- Comply with Austin Health mandatory training and continuing professional development requirements.
- Work across multiple sites as per work requirements and/or directed by management.

Selection Criteria

Essential Knowledge and skills:

- Bachelor of Laboratory Medicine degree, or alternative/equivalent science degree recognised by AIMS, AACB, AAM or ASC
- Ability to work independently with minimal supervision, and as part of a team
- Ability to prioritise and to cope with stressful and emergency situations
- Ability to cope with continuous change
- Use of Microsoft Office, and other IT systems
- Professional approach to enhance patient care and provision of pathology services

Desirable but not essential:

- Relevant experience in a diagnostic Immunology Laboratory
- Good communication skills
- Experience with different methodologies and instrumentation.
- Knowledge of principles and concepts underpinning test procedures for diagnostic Immunology.
- Experience utilising AUSLAB LIS, Q-pulse and Unity QC software

General Information

Austin Health is a Child Safe Environment

Austin Health is committed to child safety. We want children to be safe, happy, and empowered. We support and respect all children, as well as our staff and volunteers. Austin Health has zero tolerance of child abuse, and all allegations and safety concerns will be treated seriously in line with legal obligations and our policies and procedures.

Equal Opportunity Employer

Austin Health is committed to diversity and inclusion in employment and is proud to encourage applications from people of different backgrounds, abilities, ages, genders, gender identities and/or sexual orientations.

Austin Health acknowledges the Traditional Owners of the lands we work on and pay our respects to Elders past and present.

We welcome applications from people with disability and aim to provide an inclusive and accessible workplace. If you need any help with the application process or would like to discuss your reasonable adjustments during interviews, please let us know.

We welcome applications from Aboriginal and Torres Strait Islander peoples. For any support throughout the recruitment process or further information about working at Austin Health, please follow this link to Aboriginal Employment on our [website](#).
