Austin Health acknowledges the Traditional Custodians of the land on which we operate, the Wurundjeri Woi Wurrung People of the Kulin Nation. We pay our respects to Elders past and present and extend that respect to all Aboriginal and Torres Strait Islander peoples.

Position purpose

The Austin Paediatric Diabetes Service provides care to approximately 100 children with diabetes. The care team includes Paediatric Endocrinologists, Diabetes Nurse Educators, Dietitians and Social Workers. Children aged 2 – 17 years are managed from presentation (including inpatient stay) until transition to an adult service. Austin Health has a YADS clinic providing care to young adults aged 18-22 years, co-managed by adult and paediatric endocrinologists.

The Locum Paediatric Endocrinologist may be employed to cover Paediatric Diabetes Clinics or YADS; with the potential for future inpatient cover for children with diabetes. There is scope for future clinical paediatric endocrinology clinics.

About the Department

Austin Health is a tertiary teaching hospital. The Department of Paediatrics is part of the Medical and Cancer Services division. The Inpatient Paediatric Ward on 2 West is a 16 bed unit comprising medical and surgical patients with a diverse range of units involved including but not limited to general p

paediatrics, endocrinology, epilepsy, eating disorders, general surgery, ENT, orthopaedics, plastics ophthalmology and maxillofacial surgery.

The Emergency Department has a separate dedicated Paediatric Emergency area including its own waiting room, 6 cubicles, paediatric procedure room and nursing staff. Children under the age of 16 are managed in the paediatric ED. A wide range of medical and surgical problems including acute injuries present. Austin Health is a quaternary referral centre for Acute Spinal Injuries, some of which are adolescents.

Paediatrics works closely with Austin Health's large Child and Adolescent Mental Health Service.

Paediatric Diabetes clinics are conducted weekly at Austin Repatriation Hospital on Monday mornings and Thursday afternoons.

The Paediatric Diabetes Service at the Austin cares for approximately 100 children. The multi-disciplinary team include Paediatric Endocrinologists, Diabetic Nurse Educators, Dietitians and Social workers.

Children aged 2-18 years can be admitted to the Paediatric ward with first presentation Diabetes, DKA or electively for stabilisation. If requiring ICU level care, children will be transferred to a PICU (Royal Children's Hospital or Monash Children's Hospital).

The Department of Paediatrics has a role in undergraduate teaching and is closely affiliated with the University of Melbourne.

Position responsibilities

Role Specific:

- Provide contemporary, evidence-based care for children, adolescents and young adults with diabetes through participation in the multidisciplinary Paediatric Diabetes Service, including paediatric diabetes clinics, monthly YADS clinics, and related clinical activities.
- Work collaboratively within the multidisciplinary Paediatric Diabetes Service, providing clinical leadership through care coordination, shared decision-making and active involvement in patient care to support high-quality, patient-centred outcomes.
- Provide accessible responsive and respectful specialist Paediatric Endocrinology advice, consultation and liaison to medical, nursing, allied health and administrative colleagues to support high-quality inpatient and outpatient care, fostering collaborative practice, shared learning and continuous improvement
- Manage clinical and administrative aspects of patient care, including timely follow-up of referrals, investigations, correspondence, clinical documentation, and advocacy reports to support access to healthcare and community services.
- Ensure timely escalation of care related issues when required
- Opportunity to contribute to service development and processes ensuring patients receive high quality services and continuity of care
- Work within scope of practice to provide safe and high quality person-centred care for patients
- Support, teaching and supervision of paediatric registrar team
- Demonstrate a commitment to working as a team member with peer medical, junior medical, nursing and other clinical staff to provide efficient, safe and quality care across the continuum.

**Our actions

We bring
our best

Together
we achieve

We shape
the future

Austin Health is committed to cultural safety and health equity for Aboriginal and/or Torres Strait Islander People. We recognise cultural safety as the positive recognition and celebration of cultures. It is more than just the absence of racism or discrimination, and more than cultural awareness and cultural sensitivity. It empowers people and enables them to contribute and feel safe to be themselves.

Equal Opportunity Employer

We celebrate, value, and include people of all backgrounds, genders, identities, cultures, bodies, and abilities. We welcome and support applications from talented people identifying as Aboriginal and/or Torres Strait Islander, people with disability, neurodiverse people, LGBTQIA+ and people of all ages and cultures.

Austin Health is a child safe environment

We are committed to the safety and wellbeing of children and young people. We want children to be safe, happy and empowered. Austin Health has zero tolerance for any form of child abuse and commits to protect children. We take allegations of abuse and neglect seriously and will make every effort to mitigate and respond to risk in line with hospital policy and procedures.
