Classification:	Medical Specialist
Business unit/department:	Pathology
Work location:	Austin Hospital ☒ Other ☒ (Regional sites including: Mildura, Swan Hill, Echuca and other that might later be included)
Agreement:	AMA Victoria - Victorian Public Health Sector Medical Specialists Enterprise Agreement 2022-2026
Employment type:	Full-Time or Part-Time
Hours per week:	40 hrs per week, with the option to do less
Reports to:	Director of Chemical Pathology
Direct reports:	N/A
Financial management:	Budget: N/A
Date:	11/06/2025 September 2026

Position purpose

Austin Health Pathology is seeking a suitably qualified and experienced Chemical Pathologist to provide a diagnostic service in all aspects of Chemical Pathology. The appointee will support the Director of Chemical Pathology in providing oversight and support of biochemistry laboratory testing at Heidelberg, and at the regional laboratory sites for which Austin Health Pathology are responsible.

The role will also provide support and clinical oversight to the Point of Care Service provided by Austin Health Pathology.

About the Directorate/Division/Department

Austin Health Pathology provides services to Austin Health and the co-located Mercy Hospital for Women, and also numerous GPs and Specialists in the community. In addition, Austin Pathology has also taken on responsibility for a number of regional laboratories in the northwest region of Victoria. The laboratories included are: Echuca, Swan Hill, Shepparton, and Mildura. Austin Pathology also provide oversight to a number of point-of-care sites including: Castlemaine, Seymour, Kyneton, Kerang, Cohuna and Kyabram. The anticipation is that this regional expansion will continue and more regional laboratories will become part of the Austin pathology network.

Austin Pathology is located on Levels 5 and 6 of the Harold Stokes Building. Austin Pathology comprises 34 full and part-time pathologists, 11 Registrars/Fellows, Medical Scientists, and Administrative Staff.

Austin Pathology is committed to providing high quality patient care through routine and specialised diagnostic services, expert advice and support for teaching and research.

Austin Pathology is an accredited laboratory with the National Association of Testing Authorities Australia (NATA), the Royal College of Pathologists of Australasia (RCPA), National Safety and Quality Health Services Standards (NSQHS), National Pathology Accreditation Advisory Council and Medicare Australia, supported by a network of Collection Centres at hospital sites and within the community.

Position responsibilities

In conjunction with the Director, Chemical Pathology and the senior Biochemistry laboratory team the successful candidate would be expected to:

- Manage and coordinate all medical aspects of the Biochemistry Department across all Austin Pathology sites. This includes Biochemistry in the central and regional laboratories, point-of-care sites and any future areas that become the responsibility of Biochemistry.
- Be responsible to the Medical Director of Pathology for the timely provision of high quality, well-presented Biochemistry results and for ensuring the communication and notification of critical risk results.
- Be responsible for setting and monitoring Key Performance Indicators, and for monitoring test numbers and workload for all areas of Biochemistry.
- Participate in Unit meetings and activities.
- Provide an on-call service as required.
- Provide a consultative service to other Units as required.
- Provide supervision visits to the regional laboratories as required to fulfil the supervision requirements provided by NATA
- To assist the Director, Chemical Pathology and Medical Director in administrative duties as required including the development and review of policies and procedures for the provision of services, updating as needed to reflect best practice and evidence-based medicine.
- To assist in the evaluation of the delivery of services and in implementing appropriate quality and risk management initiatives.
- Demonstrate a commitment to working as a team member with peer medical, junior medical, nursing and other clinical staff to provide efficient, safe and quality care across the continuum.
- Ensure that all Department Policies and Procedures for Internal Quality Control and External Quality Assurance are practiced and maintained.
- Be responsible for ensuring that documentation relevant to the Biochemistry Department is written to NATA specifications and up-to-date. Assist in the preparation of Department Policy and Procedure Manuals when required. Ensure that all records are kept in accordance with NATA, HIC, NPAAC and other relevant guidelines.

Additionally, the successful candidate is expected to:

- Comply with Austin Health [policies & procedures](#) as amended from time to time
- Comply with the Code of Conduct and uphold our values, and diversity and inclusion commitments.
- Maintain a safe working environment for yourself, colleagues, and members of the public. Escalate concerns regarding safety, quality, and risk to the appropriate staff member, if unable to rectify yourself
- Comply with the principles of patient centered care.
- Comply with Austin Health mandatory training and continuing professional development requirements.
- Work across multiple sites as per work requirements and/or directed by management.

Teaching, Training and Research:

- Contribute to the supervision, education and training of the Chemical Pathology registrar, junior medical staff and other medical staff, nursing and other clinical staff, this may include participating in their performance appraisal and feedback processes.
- Participate in both undergraduate and postgraduate teaching activities.
- Commitment to facilitate, conduct and participate in clinical and/or basic research.
- Participate in the auditing and review of clinical practices to improve clinical outcomes.

Selection criteria

Essential skills and experience:

The successful candidate:

- Must be a registered Medical Practitioner in Australia with the Australian Health Practitioner Regulation Agency (AHPRA).
- Must hold current Fellowship of the Royal College of Pathologists of Australasia in Chemical Pathology
- Must have appropriate training and experience applicable to the field of Chemical Pathology
- Must provide evidence of up to date compliance with Continued Professional Development requirements
- Must demonstrate commitment to high quality patient care.
- Must demonstrate commitment and ongoing activity in research and/or clinical audit activities.
- Should be able to demonstrate ability to engage in teamwork and collaboration.
- Will be required to demonstrate ability to communicate effectively at all levels.
- Should be able to provide evidence of their commitment to Clinical Governance

Desirable but not essential:

- Evidence of attendance and active involvement in relevant departmental, organisational and external meetings (i.e. College, Association and National/International bodies).
- Evidence of involvement in teaching and training of medical, technical and nursing staff, including at undergraduate and post-graduate level.

General information

Cultural safety

Austin Health is committed to cultural safety and health equity for Aboriginal and/or Torres Strait Islander People. We recognise cultural safety as the positive recognition and celebration of cultures. It is more than just the absence of racism or discrimination, and more than cultural awareness and cultural sensitivity. It empowers people and enables them to contribute and feel safe to be themselves.

Equal Opportunity Employer

We celebrate, value, and include people of all backgrounds, genders, identities, cultures, bodies, and abilities. We welcome and support applications from talented people identifying as Aboriginal and/or Torres Strait Islander, people with disability, neurodiverse people, LGBTQIA+ and people of all ages and cultures.

Austin Health is a child safe environment

We are committed to the safety and wellbeing of children and young people. We want children to be safe, happy and empowered. Austin Health has zero tolerance for any form of child abuse and commits to protect children. We take allegations of abuse and neglect seriously and will make every effort to mitigate and respond to risk in line with hospital policy and procedures.
