Austin Health acknowledges the Traditional Custodians of the land on which we operate, the Wurundjeri Woi Wurrung People of the Kulin Nation. We pay our respects to Elders past and present and extend that respect to all Aboriginal and Torres Strait Islander peoples.

### Position purpose

The Patient Services Assistant (PSA) plays a vital role in supporting the Ambulatory Care Centre and Transit Lounge by contributing to safe, efficient, and patient-focused care. Working under the direction of nursing staff, the PSA ensures a clean, welcoming environment and assists with patient movement, food services, and general support tasks that enhance patient flow and comfort.

## About the Directorate/Division/Department

**The Ambulatory Care Centre** is a custom-built day treatment centre, which cares for patients requiring inpatient treatment but who do not require an acute inpatient bed or overnight stay. The Ambulatory Care Centre is a new approach towards caring for acute and chronic medical patients. Complimenting existing inpatient and outpatient services, the Centre has been established to provide an innovative and flexible patient centered model of care for medical patients requiring acute management, intervention and prevention. The Ambulatory Care Centre provides care to patients under several specialties, including Gastroenterology, Neurology, Haematology, Medical, LTU, ID, Renal & Clinical Trials.

The treatment area has room for 29 patients with 19 treatment chairs and 10 trolleys. ACC also has two procedure rooms, 1 isolation room and 3 consultation rooms.

**Transit lounge** is open Monday - Friday 0800-1830 and Saturday and Sunday 0800-1630hrs (excluding public holidays unless business requirements determine the need to). Transit Lounge can accommodate 12 patients at a time, with 10 chairs and 2 beds available. Transit Lounge is staffed by three nurses and a ward clerk.

Transit Lounge plays an essential role in assisting with patient flow by allowing acute beds to be vacated in a timely manner. Patients waiting to be discharged have a comfortable and safe environment in which to wait. Patients may also wait in Transit Lounge for admission to a ward from the Emergency or Outpatient departments, or present to Transit Lounge as a direct admission.

Patients can receive nursing care whilst in transit lounge, including observations, IVAB's, infusions and IVC removal. Patients can also be reviewed by the multidisciplinary team while awaiting discharge or transfer to a sub-acute bed.

## Position responsibilities

## General information

### Cultural safety

Austin Health is committed to cultural safety and health equity for Aboriginal and/or Torres Strait Islander People. We recognise cultural safety as the positive recognition and celebration of cultures. It is more than just the absence of racism or discrimination, and more than cultural awareness and cultural sensitivity. It empowers people and enables them to contribute and feel safe to be themselves.

### Equal Opportunity Employer

We celebrate, value, and include people of all backgrounds, genders, identities, cultures, bodies, and abilities. We welcome and support applications from talented people identifying as Aboriginal and/or Torres Strait Islander, people with disability, neurodiverse people, LGBTQIA+ and people of all ages and cultures.

### Austin Health is a child safe environment

We are committed to the safety and wellbeing of children and young people. We want children to be safe, happy and empowered. Austin Health has zero tolerance for any form of child abuse and commits to protect children. We take allegations of abuse and neglect seriously and will make every effort to mitigate and respond to risk in line with hospital policy and procedures.
