Austin Health acknowledges the Traditional Custodians of the land on which we operate, the Wurundjeri Woi Wurrung People of the Kulin Nation. We pay our respects to Elders past and present and extend that respect to all Aboriginal and Torres Strait Islander peoples.

Position purpose

The Divisional Director Surgery, Anaesthesia and Procedural Medicine and Divisional Medical Director collaboratively lead all strategic and operational facets of the Surgery, Anaesthesia and Procedural Medicine Division to ensure the efficient management of resources and effective provision of patient centered services within a complex and dynamic environmental context.

The Divisional Director contributes a critical strategic perspective to the conceptualisation and development of future oriented service delivery models of practice within a whole of organisation context.

The Divisional Director reports to the Chief Operating Officer/Deputy CEO (COO/DCEO) and works closely with the Deputy Chief Operating Officer and other Divisional Directors to realise the delivery of

contemporary, innovative and patient focused care within the health system.

The Divisional Director contributes to the development of the strategic plan and is accountable for the achievement of goals articulated within the plan and specific targets under the Statement of Priorities in terms of access, activity, quality and budget, as they relate to the Division.

The Divisional Director ensures the provision of services that efficiently and effectively enable the delivery of exceptional patient focused care.

About the Directorate/Division/Department

Austin Health Clinical Services Design and Delivery

Austin Health has a highly integrated and networked organisational design that harnesses the collective contribution of clinical and non-clinical expertise to affect exceptional patient centred care. Clinical services within Austin Health are underpinned by strong cross discipline partnerships, stakeholder engagement and collaborative practice.

The Deputy CEO/COO, the Chief Medical Officer and Chief Nursing Officer collectively steward our clinical services and create the conditions to affect exceptional patient care. Although each Directorate has a clearly defined purpose, mandate and accountability, they come together and act as one clinical services system.

The clinical services governance structure provides a formal foundation and mechanism through which the Directorates come together to explore, discuss and review complex system wide service design and development whilst collaborative processes and practices within the portfolio enable a collective contribution and performance at the local level. Austin Health clinical services comprise a complex range of national, statewide, organisational wide and specialty clinical services.

Operational Area

Clinical services within the office of the Deputy CEO/COO operate across all Austin Health campuses and some community-based settings and comprise a range of statewide, organisational wide and specialty clinical services. Those services are delivered across the following Clinical Divisions:

- Access, Critical Care, Imaging and Ambulatory Services
- Allied Health
- Continuing Care
- Medical and Cancer Services
- Mental Health
- Surgery, Anaesthesia & Procedural Medicine

The Surgery, Anaesthesia and Procedural Medicine Division (SAPM) is part of the Operations Directorate at Austin Health. The Division manages a number of specialties and services including theatres, CSSD, outpatients and the surgical wards at Austin and Repatriation sites.

SAPM provide a broad range of elective and acute surgical procedures including Liver and Renal transplant and Cardiac surgery. Other surgical specialities include Neurosurgery, Orthopaedics, Plastics, Vascular, Thoracics, Urology, ENT, Paediatrics, General surgery, HPB, UGI, Endoscopy and Radiology services. A number of clinical services within the Division have associated research units.

SAPM promotes a culture that aims to deliver quality patient care. Staff are encouraged to value lifelong learning and as such are provided with time for education and professional development. The aim of this is to ensure that patients always receive excellent care and staff satisfaction, and professional development is maintained.

Position responsibilities

Role Specific:

Our Future

- Contribute a critical strategic perspective to the conceptualisation and development of future oriented service delivery models of practice within a whole of organisation context
- Contribute to the development of the COO/DCEO's strategic plan and actively enable the achievement of future oriented goals articulated within the plan
- Contribute to the development of a shared organisational vision and navigation of the Division in alignment with the vision
- Actively scan the environment and identify emerging trends and technology that have the potential to create new service offerings or shape current services
- Actively challenge existing paradigms, explore and test alternative thinking, approaches, processes and practices and implement new ways of working that contribute to Austin Health's vision and commitment to patient centered care
- Contribute to broader health service planning and promote new initiatives to meet changing demands
- Ensure the COO/DCEO and the Austin Health Executive are well briefed on matters affecting the Divisions performance, including the provision of advice and recommendations on measures to ensure superior Division performance
- Initiate and maintain strategic relationships to advance Austin Health's vision and influence commitment to and action on new and emerging ideas

Our Care

- Ensure implementation of Austin Health quality and safety systems within the Division, whilst providing leadership in quality and safety and fostering an environment that promotes and facilitates accountability for performance, effective clinical audit systems, risk management and a culture of continuous improvement
- Actively explore emerging approaches to patient centred care and pursue strategies that have the potential to create current and future value
- Develop processes and practices that enable the collection of patient and business data and formulation of intelligence to enact evidenced based models of care
- Develop co-designed patient centred processes, procedures and seek consumer feedback as a means of validating value
- Create and promote an environment of Health Care improvement through the development of Quality improvement and review strategies
- Manage availability of critical Division resources (staff, beds, consumables, etc.) to achieve agreed performance targets

Our actions
show we care

We bring
our best

Together
we achieve

We shape
the future

austin.org.au

- Ensure the Divisions research and education is effectively and actively supported through provision of resources and balanced program management
- Participate and foster participation in ACHS Accreditation

Our People

- Actively create and promote an environment of high performance and learning within the Division through coaching, team collaboration and an enabling culture
- Develop the Divisional 'People Plan' and implement a range of People and Culture programs such as staff development, performance appraisal, leave management, team building, employment, workforce redesign and related issues to deliver high quality service to patients and other Divisions
- Actively build team resilience and capability to work in a dynamic and changing environment, authorise and enable a culture of curiosity and creativity as a means of enabling others to act within a context of ambiguity
- Ensure clarity of role and accountability within the team, remove inhibitors and celebrate excellence

Our Business

- Collaboratively engage and work with the COO/DCEO and Austin Health Divisional Director cohort in the achievement of Austin Health's strategic vision and plan
- Develop annual business plans that align to and enable the achievement of Austin Health's strategic vision and plan
- Drive initiatives to ensure financial savings targets are achieved with a focus on collaboration, strong clinical and stakeholder engagement
- Continuously review the Divisions operations, processes and practice to ensure the efficient and effective delivery of integrated services and to maximise organisational performance
- Manage preparation, delivery and performance of the Divisions business plan covering operational and strategic aspects of:
 - Finance/budget
 - Asset performance and utilization
 - Patient care and bed management
 - Systems of work
 - Risk management
 - Human Resource management
 - Business development/marketing
 - Education/Research
- Oversee operational decisions relating to staffing, resource utilisation, etc. to ensure above accountabilities are achievable and agreed targets met
- Manage the Divisional budget, ensuring both expenditure and revenue targets are met
- Participate in risk management and quality activities across the Directorate and Austin Health. Actively identifying, assessing, treating and preventing risks
- Provide operational direction of the Clinical Services within the Division and actively participate in/drive Clinical Service management processes where necessary
- Develop and negotiate agreements, contracts and commercial arrangements for the provision of services from internal and external service providers as appropriate

General information

Cultural safety

Austin Health is committed to cultural safety and health equity for Aboriginal and/or Torres Strait Islander People. We recognise cultural safety as the positive recognition and celebration of cultures. It is more than just the absence of racism or discrimination, and more than cultural awareness and cultural sensitivity. It empowers people and enables them to contribute and feel safe to be themselves.

Equal Opportunity Employer

We celebrate, value, and include people of all backgrounds, genders, identities, cultures, bodies, and abilities. We welcome and support applications from talented people identifying as Aboriginal and/or Torres Strait Islander, people with disability, neurodiverse people, LGBTQIA+ and people of all ages and cultures.

Austin Health is a child safe environment

We are committed to the safety and wellbeing of children and young people. We want children to be safe, happy and empowered. Austin Health has zero tolerance for any form of child abuse and commits to protect children. We take allegations of abuse and neglect seriously and will make every effort to mitigate and respond to risk in line with hospital policy and procedures.
