Austin Health acknowledges the Traditional Custodians of the land on which we operate, the Wurundjeri Woi Wurrung People of the Kulin Nation. We pay our respects to Elders past and present and extend that respect to all Aboriginal and Torres Strait Islander peoples.

Position purpose

The Hospital Outreach Post suicide attempt Engagement (HOPE) Program provides support for people identified as at-risk of suicide who do not require Tertiary Mental Health services.

The aim of the program is to prevent avoidable suicide attempts and death by suicide by providing the target cohort with assertive, tailored post-vention and psychosocial support in the community for a period of up to three months. The program also supports the person’s carers and families to identify and build the protective factors that reduce the risk of suicide attempt/completed suicide

The HOPE Team is a multidisciplinary team that consists of Consultant Psychiatrist, Senior Mental Health Clinicians, Psychosocial Support Workers, Family Therapist and Lived Experienced Workers. The HOPE Team provides tailored, holistic support to people post suicide attempt or people with ongoing suicidal ideation.

The role of the Senior Clinician is to support the person, their carers and family in identifying and building protective factors that reduce the risk of suicide. Additionally, there is an opportunity to facilitate or be part of groups with our consumers that focuses on sensory modulation strategies, building internal resilience, distress tolerance and therapeutic coping strategies.

This is an interesting and varied position offering a unique opportunity to utilise your specialist therapeutic and risk assessment skills, network with stakeholders and carers and participate in quality improvement activities.

About the Directorate/Division/Department

The Mental Health Division provides care and services through a comprehensive range of teams to meet the needs of mental health consumers and carers throughout Victoria. Services are across Austin Health campuses and in the community. The Mental Health Division incorporates three program areas:

- Adult Mental Health Services
- Child and Youth Mental Health Services and,
- Mental Health Specialty Services.

All mental health services work within a clinical framework that promotes recovery-oriented practice and supported decision making. This approach to client wellbeing builds on the strengths of the individual working in partnership with their treating team. It encompasses the principles of self-determination and individualised treatment and care.

Position responsibilities

- The Senior Clinicians will work collaboratively with the HOPE Manager to establish the Austin HOPE Program and to meet the objectives as determined by the DHHS and the Austin Health Mental Health Division management team.
- The Incumbent will utilise knowledge and skills to provide counselling to consumers who have mental health issues.
- The HOPE Senior Clinicians will develop effective relationships with key stakeholders internally as well as with organisations in the community.
- Apply sound clinical knowledge and an in-depth understanding of contemporary mental health practices to ensure quality clinical outcomes are achieved.
- With the support of the HOPE Manager and HOPE Consultant, provide day to day clinical shift leadership.
- Implement, monitor and review therapeutic and psychosocial case management plans in collaboration with the Psychosocial Officers to ensure positive outcomes for the consumer group.
- Independently conduct assessment of mental state and risk and work with other stakeholders or acute services to develop appropriate management plans for consumers who present in crisis, with ability to transfer clinical care to appropriate tertiary services where necessary.
- Mentor HOPE Psychosocial Officers in line with professional qualification.

General information

Cultural safety

Austin Health is committed to cultural safety and health equity for Aboriginal and/or Torres Strait Islander People. We recognise cultural safety as the positive recognition and celebration of cultures. It is more than just the absence of racism or discrimination, and more than cultural awareness and cultural sensitivity. It empowers people and enables them to contribute and feel safe to be themselves.

Equal Opportunity Employer

We celebrate, value, and include people of all backgrounds, genders, identities, cultures, bodies, and abilities. We welcome and support applications from talented people identifying as Aboriginal and/or Torres Strait Islander, people with disability, neurodiverse people, LGBTQIA+ and people of all ages and cultures.

Austin Health is a child safe environment

We are committed to the safety and wellbeing of children and young people. We want children to be safe, happy and empowered. Austin Health has zero tolerance for any form of child abuse and commits to protect children. We take allegations of abuse and neglect seriously and will make every effort to mitigate and respond to risk in line with hospital policy and procedures.
